### DIRECTORS CALL FOR ELECTION IN H. B. OIL WELL CLASH

Company Officers Foretell Court Action In Move To Oust Board

Stockholders of the Huntington Central Oil company were today victors in the first skirmish of their fight to oust the present directorate of the concern.

A resolution to call a meeting of the stockholders at 10:30, August 11, in Los Angeles for the purpose of electing a new board, was unanimously passed at a meeting of the directors there yesterday, J. R. Woodward, president of the company, informed The Register by telephone today.

This move on the part of the directors, coming as a surprise to the stockholders, forestalls for the present at least vigorous action that was planned to force a new election of directors through mandamus procedure in the courts.

The Huntington Central struggle now apparently simmers down to whether the stockholders of the company control the vote of enough stock to turn the tide of the election August 11.

Need Million More Shares  
Holding a mass meeting here last Tuesday night for the purpose of laying plans designed to oust what they charge is the "family circle" from the directorate, the stockholders were able to poll a total of 568,331 shares.

The total amount of stock of the company is 3,000,000 shares. In order to carry the election and elect a new board practically a million more shares than were represented here must be marshaled by the stockholders. The vote is bound to be close, it was said today.

The litigation committee, selected at the mass meeting Tuesday, met here yesterday, but did not consider mandamus procedure because one of the directors had assured the committee that the board of directors would pass the resolution calling for the election.

Legal Committee to Meet  
According to Attorney A. W. Ruth, of Santa Ana, counsel for the stockholders, another meeting of the litigation committee, which is composed of G. M. Lorraine, city manager of Alhambra, J. H. Macklin and F. W. Paulkner, both of Huntington Beach, has been called for some time next week in Los Angeles.

At that time, it was said, notice will be sent out to all stockholders of the Huntington Central Oil company to sign proxies for the August 11 election.

President Woodward today told The Register that the election was entirely acceptable to all of the board of directors.

"We are preparing to go ahead with the work on our wells, he said, 'just as soon as we get the finances from one cent a share assessment recently voted by the board of directors. Lumber is already on the ground and the work of bringing No. 1 back to production and of bringing No. 2 into production will proceed just as quickly as possible.'

The one cent a share assessment falls due August 12 and delinquent stock will be sold September 1, it was said.

### BARES ALLEGED FLAW IN EXCLUSION PACT

WASHINGTON, July 22.—Japan has held that the Japanese exclusion agreement of 1908 does not apply to Hawaii, and this is the reason for the large increase of Japanese immigrants to the mid-Pacific islands, J. V. A. McMurray, of the Far Eastern division of the state department, told the house immigration committee today.

His statement came as a surprise and the committee immediately passed a resolution demanding all the diplomatic correspondence, leading up to the 1908 agreement, which was framed while Senator Knox was secretary of state. McMurray indicated that under the agreement the United States has been forced to accept this view.

### ONE MAN KILLED AS TRAIN IS DERAILED

ATLANTA, Ga., July 22.—One man is dead, another is thought buried in the wreckage and a third is seriously injured as the result of a freight derailment on the Southern railway between Atlanta and Birmingham early today.

### Clemenceau Clears Up Moot Question; Says He Won the War

United Press Leased Wire  
PARIS, July 22.—The question of who won the war has been decided finally, according to the newspaper Eclair.

Printing what purported to be an interview with former Premier Clemenceau, the paper quoted him as saying:

"America does not understand by what terrific efforts I won the war.  
"I had to fight three battles, the first against the Boches, the second against the divided allies and the third against the French chamber, which had lost hope.  
"But I won."

### MEXICANS FLEE AS YAQUI TRIBE PILLAGES CITY

NOGALES, Ariz., July 22.—Yaqui Indians, on the war path, have captured the town of Torin, Sonora.

Inhabitants are reported fleeing to Guaymas, for protection. The raiders entered the municipal building, destroyed all records and instruments, and plundered and burned the post-office, according to advices received here this afternoon. Numerous stores and homes were also pillaged.

The cause of the depredations could not be accounted for by officials here, as the Indians were supposed to have made peace recently with state and federal officers.

### CHICAGO VOTE FEUD CLAIMS NEW VICTIM

CHICAGO, July 22.—The "bloody nineteenth" ward's political feud claimed a new victim today.

Andrea Orlotano, close friend of "Tony" D'Andrea, political leader, who was shot recently, was found murdered in his automobile.

He had been shot six times in the back.

### "30" BULLETINS

SCRANTON, Pa., July 22.—The Delaware, Lackawanna & Western train No. 3, westbound, leaving Scranton at 1:58 p. m., today, was wrecked at Glenburn, a few miles from this city. A score are believed injured. Details are not available at this time.

Gustavo Dato, 32, who said he was a brother-in-law of Estaban Cantu, former governor of Lower California, and Dora Tarrea, 22, both of Los Angeles, secured a marriage license here today and were married by Justice of the Peace J. B. Cox.

COLUMBIA COUNTRY CLUB, CHEVY CHASE, Md., July 22.—Jim Barnes, the lanky professional from Pelham, N. Y., is the new American open golf champion. His victory brings the American cup won by Ted Ray, the Britisher, last year, back to native shores.

## PRESIDENT WILL FILL VACANCY IN CAMP CAUSED BY DEATH OF NOTED NATURALIST

WASHINGTON, July 22.—President and Mrs. Harding will join a party of campers along the Potomac for the week-end, if they can get away from Washington, George Christian Jr., Harding's secretary, announced today.

In the party will be Henry Ford, Thomas A. Edison, H. S. Firestone and Bishop Anderson of Cincinnati. The Hardings will leave for the camp tomorrow, Christian said, unless some unforeseen circumstances change the plans.

The party is to camp along the river about 75 miles from Washington. Present plans call for the Hardings to make the run by automobile, leaving here some time in the morning.

TO FILL VACANCY CAUSED BY DEATH OF BURROUGHS.  
HAGERSTOWN, Md., July 22.—President Harding may spend the week-end near here in camp with Henry Ford, H. S. Firestone and Thomas A. Edison, it was learned today.

Harding is said to be desirous of making the trip and has completed all arrangements which only an emergency will change.

The death of John Burroughs, famous naturalist, left a vacancy in the membership of the camping party of distinguished men that for some time have been going on annual excursions back to nature.

### MAN ACCUSED IN BERGDOLL CASE HURLS DENIAL TO CHARGES

WASHINGTON, July 22.—"My answer to Mrs. Bergdoll's charges that I demanded \$100,000 from her and that I obtained \$5000 to secure her son's release, is that it is false in every particular," Major Bruce Campbell stated before the house Bergdoll committee today.

"There is not a word of truth in it," Campbell added.

Admits Bank Deposit  
Campbell admitted that he deposited \$4500 in bills with Wasserman Brothers, New York brokers, on February 20, 1920. Mrs. Bergdoll charged she paid \$5000 to her son for Campbell the latter part of January, 1920. The major claimed he had deposited more than \$5000 in the Seaboard National bank in 1917.

"The public would not accuse me of accepting a bribe from the Bergdolls in 1917. I can show that I was in position to have \$5000 without resorting to the Bergdoll bank account. It seems to me fair to presume that if I had \$5000 in 1917 I might have had it in 1920."

Will Submit Evidence  
Pressed by the committee, Campbell said that he would later trace the exact source of the \$4500 deposited with Wasserman Brothers.

"I desire to present evidence to corroborate my case, but it will require a little time."

He said papers bearing on the case are in a box car with his furniture somewhere between Long Island and Camp Pike, Ark.

### BRIAND AIRS VIEWS ON SILESA POLAND

PARIS, July 22.—The Franco-British dispute over the allied course in Upper Silesia was taken up today by the council of ministers.

Strolling over the grounds of President Millerand's summer home, the ministers heard from Premier Briand himself on his policy of rushing additional troops into Silesia, in opposition to Great Britain's desire to await a report from allied experts charged with dividing the territory between Poland and Germany.

The question, particularly as it bore on British plans, evoked animated discussion.

ON CALIFORNIA COMMISSION  
WASHINGTON, July 22.—The President sent to the senate late today the nomination of Col. Herbert Deakney, corps of engineers, to be member of the California debris commission.

### NOTICE TO BURGLARS

CHICAGO, July 22.—Mrs. Nellie May Moore served notice on jewelers and burglars she intended to purchase no more gems. Robbers made away with \$3000 worth of jewelry today, the second haul within a few months from her.

Clarence Maag, 15, driver of the ill-fated car which struck Mrs. Mathews, said, in words that were scarcely audible, that he was driving between 20 and 25 miles an hour when the accident happened. Maag said that he was partially blinded by the headlights of a car coming from the opposite direction and that he did not see the woman until he was within three feet of her. Maag said that he was driving a Ford roadster. He displayed an operator's license issued July 6, last.

Nick V. D. Broek, of Orange, was riding with Maag, also testified that the light of a machine coming toward them partially blinded him and that he did not see the woman crossing the street until the car was upon her. Broek said that Maag swerved to the left in attempting to avoid striking the woman. He said that she appeared to be facing the car when it struck her.

Talks in Whisper.  
Broek did not talk above a whisper and several of the jurors had him answer two or three times before they could hear what he said.

Clifford Potts, an eye witness to the accident, said he was driving a Dodge Brothers car and approaching the intersection in question. It was the lights of his machine that partially blinded Maag and Broek.

Potts said he saw the limp form of a woman lying in the street and stopped immediately. He took her to the hospital, he said.

The names of the jurors follow: N. E. Ward, foreman; Cleve Sedgwick, C. C. Young, H. M. Penn, C. R. Ward, B. E. Dawson and Boyd Ellis.

### PREACHER URGES STRICT LAW AT SERVICES FOR AUTO VICTIM

Rev. Oliver Hits Speeders and Reckless Drivers at Mathews Funeral

Drastic measures to curb speeding—  
Radical treatment of careless drivers—  
And each person a committee of one to record the license numbers of speedsters and careless drivers—  
These the Rev. John Oliver, pastor of the Methodist Episcopal church, of this city, urged in his address at the funeral of Mrs. Martha A. Mathews this afternoon at the Smith and Tubill chapel.

Mrs. Mathews died here Tuesday night when struck by an automobile at the intersection of Grand avenue and Seventeenth street. Her skull was fractured.

A coroner's jury, which held an inquest over her body, failed to fix responsibility for the accident.

"The time has come when something definite must be done to put an end to careless driving and speeding," said the Rev. Mr. Oliver. "And I believe that every one should consider it his duty to note the license numbers of all persons disregarding traffic laws and report them to the proper authorities."

Urges Drastic Action.  
Offenders should be dealt with in a manner befitting their offense, he declared, if recklessness is to be eliminated from Santa Ana's streets.

In the course of his address he dwelt upon the beautiful character of Mrs. Mathews and of her innumerable acts of kindness, calling her "the great friend of humanity" and "the angel of the many times she had been known to leave her bed during the night to respond to the call of illness or death."

This phase of her life, as reverently referred to, served to emphasize the deplorable circumstances of her untimely death.

Mrs. Mathews, who was the wife of P. J. Mathews, East Seventeenth street, Santa Ana, in 1897, when she was 17 years of age and lived for a time in Scranton, Pa. On November 3, 1888, she was married to Mr. Mathews, in Wisconsin, thence going to Ironwood, Mich., to live. She was the mother of two children, Richard, who died two years ago, and a daughter, Mrs. M. A. Brockett, of Costa Mesa. She had been a resident of Santa Ana for the past twenty-seven years and her friends are legion.

Fail to Fix Blame.  
The coroner's jury which held an inquest over the body of Mrs. Mathews, held that she died of a fractured skull, the result of an accident. The jury was unable to fix responsibility for the accident.

The disappearance of about \$35 from a purse carried by the deceased still is a mystery, none of the witnesses at the inquest being able to throw any light on the puzzle.

P. J. Mathews, husband of the deceased, testified that his wife went to the bank Tuesday afternoon and withdrew about \$50. He said she paid a few bills and then started home. When the purse was opened at the Community hospital there was but one \$1 bill and some small change in it.

Clarence Maag, 15, driver of the ill-fated car which struck Mrs. Mathews, said, in words that were scarcely audible, that he was driving between 20 and 25 miles an hour when the accident happened. Maag said that he was partially blinded by the headlights of a car coming from the opposite direction and that he did not see the woman until he was within three feet of her. Maag said that he was driving a Ford roadster. He displayed an operator's license issued July 6, last.

Nick V. D. Broek, of Orange, was riding with Maag, also testified that the light of a machine coming toward them partially blinded him and that he did not see the woman crossing the street until the car was upon her. Broek said that Maag swerved to the left in attempting to avoid striking the woman. He said that she appeared to be facing the car when it struck her.

Talks in Whisper.  
Broek did not talk above a whisper and several of the jurors had him answer two or three times before they could hear what he said.

Clifford Potts, an eye witness to the accident, said he was driving a Dodge Brothers car and approaching the intersection in question. It was the lights of his machine that partially blinded Maag and Broek.

Potts said he saw the limp form of a woman lying in the street and stopped immediately. He took her to the hospital, he said.

The names of the jurors follow: N. E. Ward, foreman; Cleve Sedgwick, C. C. Young, H. M. Penn, C. R. Ward, B. E. Dawson and Boyd Ellis.

## ACQUITTED OF CRUELTY DURING WAR

General Stenger of the German army is shown leaving the Supreme court at Leipzig after being acquitted of war cruelty. The French charged that he ordered French prisoners, including wounded, to be shot.

### CHIEF OF RESERVE BOARD ASKS PROBE TO QUIET CRITICS

WASHINGTON, July 22.—At the request of Governor Harding of the federal reserve board, Senator McLean, Connecticut, today introduced a resolution for a senate investigation of the board and of the office of the comptroller of the currency.

Harding's request was the result of frequent and violent criticism of the board and its policy; both in congress and out.

Inclusion of the comptroller's office was based on recent attacks on the board by John Skelton Williams, former comptroller.

### 'DONE WITH WOMEN,' SAYS YOUTH OF 91

CHICAGO, July 22.—Ambrose J. Rose, 91, is through with women for life, he announced here, after he had been granted a divorce from his third wife.

"The women are getting worse every generation," he said. "My first wife was pretty good; my second was medium and the third was no good at all. Women are no longer home-loving and I am through with them."

## LAGUNA AGOG AS MODERN VENUS GAMBOLS ON BEACH AS ART COLONY PAYS HOMAGE

The Laguna Beach Art association by Frank W. Cuprien, Karl Yens, Joseph Kleitsch, Conway Griffith and many others, and the West Coast Art International association, represented by Mrs. L. F. Ferguson and Mrs. Mabelle Lord Frost, viewed Olive Anne Alcorn, dancer, said to have the most perfect figure in the United States, as she posed against a background of Oriental rugs in the studio of Grace Jay Swan at Laguna Beach this afternoon. They pronounced her figure perfect, declaring it to resemble more closely Venus de Medici than the Venus de Milo. Miss Alcorn had believed her figure to be Grecian, but the artists found it to be more closely related to the Florentine type.

Laguna, that spot so loved of artists, was today in the throes of a new sensation.

Members of the artists' colony were all agog with interest, for a new star swept across their ken.

Miss Olive Anne Alcorn, hailed in Los Angeles as the most perfect specimen of feminine pulchritude now extant, was the guest at Laguna of a number of celebrities in the artistic world now gathered in Los Angeles, and during the course of the affair arranged in her honor, was crowned with laurel, as the queen of beauty, the modern Venus.

Because the interest which beauty always arouses in the mind of the artist is well known, thirty of the prominent members of the Laguna art colony were given special invitation to gather at the Grace Jay Swan studios, Laguna Beach, where the coronation ceremonies took place.

These were favored by an exhibitory beach town.

## ILLINOIS GOVERNOR WILL CALL OUT STATE MILITIA TO ESCAPE GRAFT CHARGE

United Press Leased Wire  
SPRINGFIELD, Ill., July 22.—Judge E. S. Smith took under advisement late today the claim of Governor Len Small that he was not subject to arrest and trial on charges of juggling millions of dollars of state funds.

The judge said he would defer decision until the governor had an opportunity "to come into court," leaving the inference that he would hold the executive amenable to arrest.

Judge Smith adjourned court until next Tuesday when he is expected to announce his decision.

SPRINGFIELD, Ill., July 22.—State troops, if necessary, will be used by Governor Len Small to resist arrest on charges of juggling millions of dollars of state funds, the executive announced today.

The governor declared he could not submit to arrest without violating his oath of office.

Will Resist Arrest  
"I will use all the power I possess to resist arrest," the governor said. "The statement was made public as his attorneys argued before Judge Smith in circuit court the point of law that the 'king can do no wrong' and therefore the chief executive of a state is not subject to the power of the courts."

Soldiers are already guarding and protecting the governor. Small's detachments of troops were seen unobtrusively around the capitol grounds and through the state house.

Cite Hypothetical Case  
The governor's attorneys, in their argument to the court, cited a hypothetical case wherein they outlined the situation which would result if a governor was accused of a crime, the sheriff's forces attempted to arrest him, the governor as commander of the military forces called on the troops to resist and an armed clash followed.

"Anarchy will follow," the attorneys told the court. "The house of government is divided against itself."

ATTORNEYS HOLD GOVERNOR ABOVE ARREST  
SPRINGFIELD, Ill., July 22.—"The king can do no wrong," was the basis of the plea made by attorneys for Len Small, governor of Illinois, in Sangamon county circuit court today. Their argument was made in an effort to convince the court that the chief executive did not have to submit to arrest and trial on indictments charging him with stealing millions of dollars of state money while serving as state treasurer.

Expect Early Ruling  
Judge E. B. Smith, at the conclusion of the answer to the governor's claim by State's Attorney Mortimer, was expected to rule immediately on whether the governor was above all power of the courts, or whether the executive must submit to the court decrees the same as any other person.

In case the court upholds Small's contention, the governor cannot be brought to trial until his term expires in 1924.

If the stand taken by Small is declared illegal, warrants will be handed to Sheriff Henry Mester and arrest of the governor will be ordered.

Hold Him Above Arrest  
Legal advisors of the executive informed the court that the constitution forbids that he submit to arrest. To do so they pointed out, would be a surrender of sovereignty of the executive branch of the government.

The attorneys declared it would be ridiculous to try the governor for a crime and convict him when he would have the power to pardon himself.

### BASEBALL RESULTS

NATIONAL LEAGUE  
(First Game)  
Pittsburgh . . . . . 1 5 1  
Boston . . . . . 2 8 0  
Pittsburgh—Hamilton and Schmidt; Boston, McQuillan and O'Neill. (10 innings.)

BRINGS SUIT FOR NICKEL  
DENVER, July 22.—A suit for a nickel has been filed by John T. May, local attorney, who deposited the coin in a pay telephone and then didn't get his number.

### ENSIGNS OF 4 REAR ADMIRALS ARE SEEN

SAN DIEGO, July 22.—The unusual sight of four rear admirals' flags flying from ships' trucks and signal towers were seen from San Diego harbor this morning.

Among the flag officers represented by the two-starred flags will be Rear Admiral Josiah McKean, whose flagship, the battleship Wyoming, will steam into the harbor from Bremerton at 11 o'clock.

Rear Admiral Herman O. Stickney, commander of the train, Pacific fleet, with the armored cruiser Pittsburgh as flagship; Rear Admiral Guy Burrage, destroyer force commander, cruiser Charleston, flagship, and Rear Admiral Roger Welles, whose flag flies from the North Island air station signal tower.

Fifteen warships arrived in port yesterday, bringing the total number of warcraft in the harbor to 109.

### CHARLES DEMANDS RIGHT TO TRAVEL

PARIS, July 22.—Former Emperor Charles of Austria-Hungary has demanded he be allowed to leave Switzerland for Denmark, according to news received here, which expressed belief this move concealed a plan for another attempt eventually to restore Charles to the throne of Hungary.

## MYSTERY MOVES WIN BANK PLOT ACCUSED STAY

At the request of S. M. Davis, counsel for William Wignall, convicted by a jury of criminal conspiracy in defrauding the First National bank of Yorba Linda, out of \$300, the hearing of an application for probation and pronouncement of sentence was continued today until next Monday morning at 9 o'clock.

Davis stated that Charles P. Huey, of Los Angeles, who was associated with him in the defense of Wignall when his trial was held here about ten days ago, desired to make a statement before the court in behalf of the defendant.

**Pleads Business Pressure**  
However, Davis said, it would be impossible for Huey to get here today because of court business in Los Angeles.

A letter written to Davis by Huey was presented to the court, but Judge West made no open comment on the contents of the epistle. Earl R. Abbey, the court clerk, was instructed to call Attorney Huey on the telephone and find out just what sort of a pleading he desired to make in behalf of Wignall. It was not learned what Huey's answer was but Judge West deemed it sufficient to warrant a continuance.

**Will Oppose Probation**  
District Attorney A. P. Nelson said that he would oppose the granting of probation to Wignall in view of his prison record. The defendant was out of San Quentin less than a month when he entered into an alleged conspiracy with three other men to defraud the Yorba Linda bank. His associates have not been apprehended.

Wignall served two years of a three-year sentence for obtaining money under false pretenses. It was intimated that Attorney Huey would ask for a new trial of his client on the ground that new evidence had been found that would tend to prove the defendant not guilty.

**GENERAL STRIKE UP  
TO 'FRISCO UNIONS**  
United Press Leased Wire  
SAN FRANCISCO, July 22.—Whether threats to call a general strike in the San Francisco bay district will be carried out today laid largely with the San Francisco labor council.

The San Francisco building trades council late yesterday unanimously endorsed a resolution calling for such a strike and passed the matter on to the labor council for consideration.

If the labor council views the plan favorably it will be submitted to a referendum vote of all unions for a final decision.

The threat was an outcome of the San Francisco building trades strike which has been in progress for some six weeks. It came when employing contractors announced they had adopted the "American plan" and would consider no other.

**CONGRESS MAY TAKE  
UP REFUNDING TASK**  
WASHINGTON, July 22.—A proposal that congress take out of Secretary Mellon's hands the handling of Europe's \$10,000,000,000 debt to the United States may be made to the senate finance committee if Mellon does not submit a plan which satisfies a majority of the committee, it was indicated today.

Some members of the finance committee are of the opinion that congress ought to have a hand in framing the refunding arrangement.

## HARDING APPOINTS BODY TO LIQUIDATE SHIP BOARD CLAIMS

WASHINGTON, July 22.—President Harding today named a commission to liquidate \$211,000,000 worth of claims against the shipping board, as follows:

Walter D. Meals, former associate justice of the Ohio appellate court, chairman.

Homer Ferguson, former president of the chamber of commerce of the United States, now president of the Newport News shipbuilding and Dry Dock company.

S. W. Wood, former president of the Maryland Steel company.

Captain Richard M. Watt, United States navy.

Arthur Teale, accountant.

O. P. M. Brown, of Washington, secretary.

## LAW USED AS LEVER TO DISCREDIT FIRM?

United Press Leased Wire  
SALT LAKE CITY, Utah, July 22.—Charges that the process of law was resorted to for the purpose of discrediting the local brokerage firm of Child, Barclay and company and depreciating the value of the stock of the Bingham Galena Mining company, were made by Secretary H. C. Hicks, of the state securities commission, which was accepted and filed.

A report, after reviewing failure of the California securities commissioner to answer the Utah's board inquiries, concludes as follows:

"As neither the commissioner of corporations, nor any member of his official organization, nor the office of Alameda county will forward any information relative to the complaint, which it is claimed was filed against Child, Barclay and company, it becomes apparent that process of the law was resorted to for the purpose of discrediting the firm of Child, Barclay and company and depreciating the value of the stock of the Bingham, Galena Mining company through publicity, which otherwise would not have been published without subjecting the publishers of the same to damages for libel."

"After spending much time in investigating the case from every possible angle your secretary has found nothing which would justify any action on the part of this commission relative to the license of Child, Barclay and company, or anything that should impair the standing and integrity of that firm before this commission."

"It further appears that nothing in either the postcard or the letter is a violation of interstate commerce and there appears to be no reason why the firm should not be fully exonerated."

The communications referred to were those sent to the California securities commissioner and the police judge of Oakland. Although several days have passed since the telegrams were dispatched, no replies have been received, despite the urgency of the messages sent.

## CREAMERY FIRM SUES S. A. MAN FOR \$1,915

Two suits were filed in the superior court here today. One action was brought by the Excelsior Creamery company against Williams Hewins of this city for \$1,915.35, alleged to be due for goods sold and delivered to the defendant and at his instance and request.

The other suit was brought by William F. Speer and his wife, Augusta, against M. M. Sutton and Leslie H. Sutton of Placencia, for \$1,750, which the plaintiffs claim, is due as a balance on a promissory note.

John A. Harvey filed the first complaint and Allen and Lyon of Fullerton, filed the second.

## TO NAME DELEGATES

At a meeting of the Orange post, American Legion, last night, Commander H. G. Upham was authorized to appoint the delegates from that post to attend the Legion state convention, which is to be held at Yosemite park, on August 22, 23, 24 and 25. It is expected that Upham will make his selection immediately.

## ELOPERS WIN AS PERJURY CASE IS DISMISSED

Testimony brought out at the preliminary hearing of Socorro Gutierrez, Mexican, and his Spanish-American wife, Rose Tinker, charged with perjury in swearing to a false affidavit in securing a marriage license here, showed that the girl was "eighteen when she worked" and "fifteen" when she did not.

The case was tried before Justice of the Peace Cox this morning. It was full of surprises and peculiar angles. Judge Cox finally concluded that the girl did not know exactly how old she was at the time she procured a marriage license, and that her husband had no way of determining her age.

**Spring Surprise**  
L. Lee Bernstein, of Los Angeles, attorney for the youthful elopers, sprang a surprise when he offered in evidence a letter showing that the parents of the girl desired to drop the proceedings and that they admitted having represented the girl as being 18. The letter, which was addressed to Judge Cox and District Attorney A. P. Nelson, was as follows:

"We, the undersigned, parents of Rose Tinker, have consented to her marriage with Socorro Gutierrez before and since their marriage. We have been reconciled and united. We admit we have represented Rose to be 18 years of age and she evidently relied upon our representation."

"We respectfully request that the proceedings and warrant charging the said Rose Tinker and Socorro Gutierrez with perjury be withdrawn and the proceedings dismissed as we believe there was no intention on the part of the said persons to make false oath and that there was no probable cause for the action we took."

**Parents Sign Letter**  
The letter was signed by both parents of the girl and by an eye-witness to their signatures.

Mrs. Tinker was the first witness called. She testified that Rose was born in Los Angeles August 27, 1905, and that she would not be 16 years old until next month.

Attorney Bernstein then handed her an employment application which she filled out on September 20, 1920, when her daughter sought a job with a Los Angeles department store. Mrs. Tinker admitted that she wrote the answers to the questions on the application blank and that she gave her daughter's age as 18 at that time.

She did that, she said, in order that her daughter might secure work. Mrs. Tinker admitted representing her daughter as 18 years of age on another occasion, when she sought work in a Los Angeles restaurant. The father of the girl testified that he did not know her exact age. He had seen it in the family Bible, he said, but could not remember.

Rose Tinker testified that her mother had frequently represented her to be 18, particularly when it was necessary for her to go to work. She also said that she had seen her birth record as recorded in the family Bible. She stated that the record was transferred from one book to another and that she is not sure that the date was copied correctly.

Rose said that she had no way of ascertaining the exact date of her birth. She had to rely, she said, on what her parents told her.

At the opening of the preliminary, Attorney Bernstein sought a dismissal of the case on the ground that the defendants had not been properly

## WILL WAR HERO BE VICTIM OF MORTGAGE?

PALL MALL, Tenn., July 22.—If you were living on one of the finest farms in Tennessee—

If you had a wife and three-months-old baby dependent upon you—

If you faced losing your farm through foreclosure of a \$12,500 mortgage—

And you were the greatest hero of the world war—

You could make possibly enough to pay off the mortgage merely by showing yourself in public—

Would you?

That is the question that Sergeant Alvin C. York, has to face. His answer is "No." He will not commercialize his patriotism. His sense of obligation to his country and his religious scruples prevent.

"I would far rather lose my farm, and go back to work upon it as a common day laborer, than to commercialize the fame which was only incidental to an act of Providence," he says.

**How York Won**  
That "act of Providence" made the red-headed sergeant famous as the war's greatest hero, not only throughout America but in every allied country. On Oct. 18, 1918, in the Argonne Forest, York single-handed killed 25 Germans, put out of commission 35 machine guns and marched into camp 132 German captives, including a major and three lieutenants. For his feat he won the congressional medal of honor and the croix de guerre, pinned on by Marshal Foch himself.

Spurning movie and vaudeville offers that would have made him rich, he came back to his mother's hillside farm and took up the hoe.

A short time later he married a girl of the neighborhood. Friends and admirers picked out a farm for him almost directly across the road from the farm of his mother, and paid \$11,235 on it through popular subscription.

For a time things moved serenely. York, whose whole ambition had been to own a home in his Tennessee mountains, farm his own land, hunt the foxes that roamed the hills and show true hospitality to the strangers who passed his door, was content.

A little later Alvin C. Jr., came, and life seemed even more worth living. But such good fortune was not to last.

**Crop Failure**  
Crops were a big disappointment. Farm products brought exceptionally low prices. Taxes reached an unprecedented high figure.

With the \$12,500 mortgage for the balance on his farm due this fall, things went from bad to worse. A \$250 grocery bill accumulated and the grocer feels unable to extend much more credit.

York is toiling from "kin to kum"—from earliest break of day to the last lingering of light—to prevent his life's dream from being shattered. But it looks like a vain task.

arrested. He pointed out to the court that there was no indorsement of any justice of the peace of Los Angeles county on the back of the warrant, as required by law. And in view of this fact he sought to quash the service of the warrant.

Deputy District Attorney C. N. Mozley held that inasmuch as the defendants were in court the serving of the warrant was unnecessary. Judge Cox overruled Bernstein's objection and the case proceeded.

**Case Ends**  
The case came to an end after both Mozley and Bernstein had presented arguments. Mozley himself asked that the case be dismissed. The young couple, apparently very much elated over the outcome, left the courtroom by one door, while Mrs. Tinker left by another.

Interment in Fairhaven cemetery.

## FUNERAL NOTICE

Funeral services for J. H. (Jack)  
Inman will be held tomorrow  
afternoon at 2 o'clock at Smith and  
Tuthill's Chapel.

GAMBLERS HIT AT  
BLACK SOX TRIAL

United Press Leased Wire  
CHICAGO, July 22.—Black sox  
prosecutors started a drive against  
the alleged gamblers mixed up in the  
19 world series scandal late to-  
day.

Harry Redmon, East St. Louis, Ill.,  
movie exhibitor, was called to the  
stand to testify against Carl Zork,  
St. Louis, one of the four alleged  
gambler defendants in the trial of  
seven former White Sox stars.

Redmon said he had known Zork,  
Abe Attel and Ben Franklin, all in-  
dicted, for fifteen years.

The witness was questioned about  
a conversation he had with Frank-  
lin.

"Franklin told me in a Chicago ho-  
tel during the series that eight of the  
ballplayers were throwing the se-  
ries," the witness said.

"He said the gamblers and ball  
players had fallen out, but that the  
gamblers had run the series to the  
fourth game. Franklin said if we  
could raise \$40,000 the players would  
throw the next two games. He asked  
me to put up \$5,000 but I refused."

TARIFF HEARINGS TO  
BE STARTED MONDAY

WASHINGTON, July 22.—The  
senate finance committee will begin  
hearings on the tariff bill Monday.  
Senator Penrose announced today  
following reference of the bill to  
that committee by the senate.

The dye stuffs embargo and the  
question of American valuation  
will furnish the chief points of con-  
tention in the senate, in the opin-  
ion of the Republican leaders.

## WYOMING OIL NEWS

A telegram just received from  
Mr. Dockweiler that the commis-  
sioner of the General Land office  
has issued a prospecting permit to  
the Wyana Oil Co. Now that the  
permit has been issued the drilling  
will speed up and we hope to  
have production in a short time.

May live stern lives  
of duty,  
But one gay careless  
butterfly  
Can give the world  
more beauty.

## City and County

That there were only nineteen  
calls and two false alarms in which  
the Santa Ana fire department partic-  
ipated during the fiscal year,  
June 30, 1920, to July 1, 1921, was  
the announcement today by Fire  
Chief John Luxembourg. The  
total amount of damage done during  
the year was \$15,733, of which the  
recent fire at the Spurgeon  
Building caused approximately  
half. Luxembourg challenges any  
city the size of Santa Ana in South-  
ern California to compare similar  
records.

"Cupid Triumphant" might be  
the name given to the picture today  
afforded by "Jimmy" P. Burris, Los  
Angeles, and Leonora, his wife, who  
were recently wedded in this city  
in the face of parental opposition.  
The young people eloped from Los  
Angeles the other day, after Mr.  
and Mrs. Joseph Winter had refused  
to allow their daughter, Leonora El-  
hardt, to marry Burris on account of  
her extreme youth. The 16-year-old  
girl took matters in her own hands  
and after the marriage took place  
in this city, the elopers disappeared  
only to be found yesterday morning  
at 225 East Sixty-fourth street, Los  
Angeles.

Santa Ana and all of Orange coun-  
ty will have a fair representation at  
the annual gathering of Illinoisans  
to be held tomorrow at Bixby park,  
Long Beach. An interesting day for  
former residents of that state is  
promised by the committee on ar-  
rangements, and a welcome on the  
part of the city will be extended by  
Mayor Buftum, himself a "Sucker."

Interest among yachting enthu-  
siasts was centered today in the race  
to be held tomorrow under the aus-  
pices of the Newport Harbor Yacht  
club. The race will be a two-day  
event, competing yachts leaving the  
Balboa pier early tomorrow morning  
for the western end of Catalina Is-  
land, there to round a designated  
buoy and start on the return lap. It  
is thought that they will finish some  
time Sunday evening, when the win-  
ner of the Commodore Claude G. Pin-  
tun silver cup will be announced.

"Birch park had all the appearance  
of a summer carnival," was the com-  
ment heard today on the crowd in  
attendance at the second concert of  
the season, offered last night by the  
Orange County Auto Trades associa-  
tion. All streets in the vicinity of  
the park were filled with automo-  
biles, and the numerous peanut and  
cold drink vendors added a colorful  
note to the scene with their gayly  
lighted wagons, ranging from  
classical to the jazziest of modern  
music, was given to the great enjoy-  
ment of the assembled crowds.

Jacob Fisher, son of Mrs. Jacob  
Fisher, who was severely wounded  
and twice decorated while serving  
with the American forces in the  
Argonne during the World War, has  
arrived here from San Francisco,  
where he has been attending art  
school. Fisher recently suffered two  
serious attacks of illness brought on  
from wounds sustained overseas and  
came home to spend a vacation with  
his mother, his sister, Lydia Fisher,  
and relatives at Laguna Beach.

Two clusters of Kentucky wonder  
beans grown by J. B. Wine at  
711 East Pine street were on ex-  
hibition at the chamber of com-  
merce rooms today. One cluster of  
four pods weighs 3 1/2 ounces. The  
pods are 10 inches long.

Roy Andre, here from Westmore-  
land, interior valley, to remain two  
or three weeks. His family has been  
here for some weeks. Andre says  
that activities in the valley are  
picking up and he predicts a gen-  
eral revival this winter.

Ellis Rhodes, Maurice Phillips,  
Harry Garstang and Robert Brown  
have accepted an invitation to sing  
as a quartette at a big meeting of  
Modern Woodmen at Fremont park,  
Riverside, next Wednesday evening.  
Earl Fraser will be accompanist.  
The Riversiders anticipate an at-  
tendance of between 2000 and 3000.  
The fame of the local quartette has  
spread to that city, with the result  
that the committee in charge of  
the evening program wrote here  
asking the local men to take part  
in the program.

A contract for the laying of a ce-  
ment floor in the athletic quarters at  
the Santa Ana high school was today  
awarded James L. McKenzie, cement  
contractor, 1021 Cypress street. The  
contract price was announced to be  
13 cents a square foot. The total  
floor space to be covered is 5424  
square feet. A sum of a few cents in  
advance of \$705 is involved.

Santa Ana Elks were today plan-  
ning to take a big crowd of rooters  
to Orange Sunday when the base-  
ball team from the local lodge  
clashes with the strong Anaheim  
team. The game is set for 2:30 on  
the Glassell street field. The Ana-  
heim Elks, now leading the B. P. O. E. league, have yet to suffer de-  
feat. Manager Hyde of the locals  
announced today that either Loy or  
Pine would be in the pitcher's box  
for the Santa Anans.

Dr. W. F. Harper, executive sec-  
retary of Southern California Bat-  
tist association, will preach at both  
morning and evening services at  
the First Baptist church, next Sun-  
day.

The baseball team of the First  
Baptist church Daily Vacation Bible  
school is claiming victory today

HIGHER DUTY ON  
BEANS, AIM OF  
CAL. GROWERS

That the bean growers of Califor-  
nia are not satisfied with the 1-3-4  
cent tariff in beans, which it is re-  
ported as having been decided upon  
by the ways and means committee  
Tuesday, is indicated by the contin-  
ued activity of the California Bean  
Growers' association, representing  
thousands of growers, to have the  
rate at least equal to the incorpo-  
rated in the emergency tariff, or 2  
cents a pound.

J. V. Mendenhall, president of the  
association, has issued the follow-  
ing statement regarding the situa-  
tion: "The tariff committee of the as-  
sociation has had its headquarters in  
Washington during the past month  
and with the assistance of congres-  
sional and senatorial representatives  
from the state, has been able to in-  
crease the proposed rate from 1 1/4  
to 1 3/4 cents."

Wage Big Drive  
Through this committee, the Cal-  
ifornia state market director, bean  
growers, dealers, farm bureaus,  
chambers of commerce and others in-  
terested in the industry in the six  
bean producing states of the coun-  
try, have been brought into the  
campaign to get protection against  
Oriental importations which have  
seriously menaced the domestic  
product and which, in 1919, practically  
broke the 6000 or more growers in  
California. The tremendous im-  
ports of 1918, 1919 and 1920, in a  
large measure, caused a decrease in  
acreage in California alone of from  
592,000 acres in 1918 to 287,000 acres  
in 1920, and a falling off in value  
of the crop from \$47,952,000 in 1918  
to \$9,269,324 in 1920, or a loss to the  
State of nearly \$39,000,000. Under  
normal conditions, domestic produc-  
tion will take care of home consump-  
tion, and beans are not like many of  
the other crops of which there is  
more or less surplus for export."

Cites Menace  
"The result is that Oriental beans  
produced by cheap labor of Japan  
and China, without a protective tar-  
iff, can be sold in the United States  
and take the markets away from  
the domestic product, and one of  
the largest and most important  
industries of the state will be  
seriously affected."

"Another economic factor that  
should be considered is, beans are  
one of the principal foodstuffs used  
by the army and navy, and in time  
of war the industry should be in such  
a condition that it will not be nec-  
essary to depend upon a foreign coun-  
try for our food supplies, which  
would be the case, as far as beans  
are concerned, should the industry  
of the country be forced to materi-  
ally curtail production owing to the  
fact that beans cannot be grown  
at a fair profit or in competition with  
the Orient."

"Steps are being taken to carry  
the fight into the senate if congress  
fails to give the needed relief."

SPEED MARKS MAIN  
ST. PAVING WORK

Grading on Main street in the  
three blocks between Fourth and  
Seventh will be in progress next  
Monday or Tuesday and surfacing of  
the three blocks between First and  
Fourth will be started next Wednes-  
day, according to statements today  
of William Morris, foreman for  
Steele S. Finley, who has the con-  
tract for paving the six blocks.

Main, between First and Fourth,  
will be thrown open to traffic next  
Saturday afternoon or night, ac-  
cording to Morris.

On the three blocks north of  
Fourth the city has completed all  
water service connections and is ex-  
tending the work north on the street  
on the George R. Curtis job, work-  
men being engaged in the vicinity of  
Tenth street.

Three or four sewers are yet to be  
installed in the three blocks south of  
Seventh, and if this work is com-  
pleted Monday grading work will  
start Tuesday.

The city is putting cut-off valves  
in all fire hydrants on Main as it  
has done on other streets that have  
been paved. This is done as a matter  
of precaution to prevent water from  
leaking out and to save ex-  
pense in repairing hydrants.

In the past when it became nec-  
essary to repair a fire plug water ser-  
vice in a considerable area had to be  
cut off while the repair was being  
made. With valves installed, water  
can be shut off at the hydrant and  
repairs made without interrupting  
service.

Indications today pointed to possi-  
bility of George R. Curtis being in  
position to start repair work on the  
base of the East First street pave-  
ment by next Monday. It is believed  
that the street will not have to be  
closed longer than six weeks while  
this work is in progress. The period  
will depend to a considerable ex-  
tent on the number of square feet  
of base that will have to be repaired.

CHILDREN OF MEXICALI  
FORM LONG 'MILK LINE'

CALEXICO, July 22.—L. C. Born,  
American dairyman, operating in  
Mexicali, told two or three Mexican  
children that if they brought pails to  
the dairy he would give them  
skimmed milk free. It wasn't long  
before all the children in Mexicali  
appeared to know of the plan.  
A line of children with pails that  
quickly absorbed all the extra  
skimmed milk from the dairy.

The dairy was installed here at the  
request of Gov. Ybarra to relieve a  
serious milk shortage. The demand  
for the refuse milk is taken as an in-  
dication of the poverty among some  
of the Mexican families because the  
men are unable to get sufficient  
work.

over the First Christian church D.  
V. B. S. team by reason of the de-  
fault of the latter of a game set for  
yesterday afternoon.

SANTA CATALINA IS  
SLOWLY SINKING, IS  
GEOLOGICAL REPORT

The claim recently advanced by  
Mexico to ownership of the islands  
off the coast of California has  
aroused interest in them to such an  
extent that the National Geographic  
society has issued a bulletin about  
them.

"California owes her off-shore to-  
lands not to drifting sands as the  
southern sections of the Atlantic  
coast owe theirs," says the bulletin,  
"but to the fact that the state is  
the center of one of the most active  
regions geologically in the world in-  
cluding the southernmost of the is-  
lands, has risen from the sea, ac-  
cording to geologists until its top-  
most peak has an altitude of over  
1900 feet, Santa Catalina, on the  
other hand, has been sinking, though  
evidence of the slow movement are  
not apparent to laymen."

"None of the California islands is  
of any great extent. Santa Cruz, the  
largest, is 21 miles long and has an  
average width of five miles. It is  
also the highest, having a peak  
which reaches an altitude of 2407  
feet. Santa Barbara island is only  
one and one-half miles long and one-  
half mile wide. The three Anacapa  
islands which almost touch, are to-  
gether slightly larger, but the in-  
dividual sections are smaller. These  
islands are generally considered  
one."

ROAD IMPROVEMENTS  
PLANNED BY FINLEY

Two jobs of grading and graveling  
are contemplated by Supervisor S.  
H. Finley of Santa Ana with the first  
district's portion of money derived  
from Orange county's share of auto-  
mobile licenses.

One of these jobs is the improve-  
ment of West Seventeenth street  
westward from the Santa Ana city  
limits. The county is well along  
with its project for the building of a  
bridge across the Santa Ana river at  
the Seventeenth street crossing.  
Finley through the county engineer  
department will spend \$9,000 in grad-  
ing and graveling Seventeenth on  
both sides of the river.

Finley has also made an approp-  
riation of \$4,000 to be used in grad-  
ing and graveling the south end of  
Placencia avenue from Katella ave-  
nue to the state highway near the  
county hospital. This portion of Pla-  
cencia avenue a few months ago  
was opened up. It is proposed to put  
it into good condition.

It is from the license fund  
that the county under the designa-

BUYING CONTINUES  
LIGHT ON EXCHANGE

NEW YORK, July 22.—The Evening  
Sun financial review this morning  
said:

The quiet buying which came into the  
stock market during today's session in-  
dicated that traders are not entirely un-  
mindful of the numerous constructive  
forces which are at work in the finan-  
cial situation. Buying was still very  
cautious and in limited volume, though  
somewhat larger than yesterday. Can-  
adian Pacific, Reading, Northern Pa-  
cific, Rock Island and Baltimore and  
Ohio were prominent in the early up-  
turn. Southern Railway was very active,  
getting up to 78. The money market  
gave more positive evidences of easing  
conditions.

Persistent firmness of the raw and re-  
fined sugar market which was a first  
not taken very seriously because of the  
large stocks of the commodity on hand,  
nevertheless found further reflection in  
sugar securities today. A rally in Pan-  
ama Players common was engineered  
but the \$5 preferred stock broke to a  
new low for the year below 75, off 15  
points from the top.

## NEW YORK STOCKS

NEW YORK, July 22.—The light vol-  
ume of trading in the early stock mar-  
ket today gave evidence that another  
dull day was in prospect.

The active stocks in general showed a  
firm tone. Rally in particular acted  
well, and showed slight gains from  
Thursday's close.

Steel common was unchanged at 72  
5-8 at the opening with Republic up 1-4  
at 45 1/2.

Studebaker was shaded 1-4 at 77 1-2.  
Allied Chemical opened fractionally  
lower but quickly recovered the loss and  
then proceeded to climb to a slight gain.  
Opening prices included:  
Famous Players, 46, up 1-8; General  
Asphalt, 48 5-8, off 3-8; Mexican Petrol-  
eum, 102 1-2, off 3-8; American Sugar,  
61 1-8, off 3-8; Republic Steel, 45 1-2, up  
1-4; A. T. & T., 144 1-2, up 1-8; Canadi-  
an Pacific, 111 1-4, up 1-2.  
The market closed irregular.

Cuban Cane preferred was the fea-  
ture of the sugar group in the last hour.  
It held at 27 3-4, up over 8 points from  
the low of the morning. American Sug-  
ar picked up a point.

Closing prices included:  
U. S. Steel, 72 5-8, off 1-4; Pan Amer-  
ican, 48 1-8, up 1-8; Kelly Springfield,  
27 1-8, up 3-8; Famous Players, 47, up

public, 45, off 1-4.

## CHICAGO BOARD OF TRADE

CHICAGO, July 22.—Wheat prices on  
the receipt of favorable crop reports  
went lower in today trading on the Chi-  
cago Board of Trade. Other grains and  
provisions were irregular.

July wheat opened up 1-2 at 127 and  
closed 1 1/2-1/2. September opened un-  
changed at 126 1-4 and closed 1-4  
lower. December opened 129 1-2, un-  
changed and closed off 1-4.

July corn opened 64 1-8, up 1-8 and  
closed 1-4-1/4. September opened  
1-8 up 1-8 and closed 1-8 lower. De-  
cember opened unchanged at 61 3-8 and  
closed 1-4.

July oats opened 1-8 up at 40 1-8 and  
closed 3-8 off. September at 41 1-2 and  
closed 1-2. December up 1-8 at 44  
1-8 on opening, closed half off.

HARDING PARLEY  
OPEN TO SMALL  
POWERS, WORD

United Press Leased Wire  
WASHINGTON, July 22.—The  
United States has advised Belgium  
and other interested powers that  
when the Far Eastern question is  
brought up in the Washington dis-  
armament conference in such a way  
as to affect the interests of those  
nations, there will be no difficulty in  
being represented, it was learned to-  
day.

The other nations so advised are  
understood to be Holland and Portu-  
gal, who with Belgium have large  
interests in the Far East.

Secretary of State Hughes has ad-  
vised these nations of this attitude  
only in a tentative way and has not  
committed the government, as it is  
not desired to open this question to  
all countries of the world before  
there is a definite agreement among  
the powers to participate in the con-  
ference.

The announcement today on offi-  
cial authority was made in response  
to reports from Europe protesting  
that Belgium had not been invited.  
Hughes has been advised of the  
meeting today in Tokio, of the diplo-  
matic advisory council, which is to  
give a final decision on the question  
of Japan's participation in the Pa-  
cific conference.

Baron Shichara is thought to  
have told Hughes late yesterday that  
the diplomatic council will make a  
favorable decision.

WEEVIL INFESTING  
COTTON IN SOUTH

WASHINGTON, July 22.—Reports  
from practically all portions of the  
cotton belt indicate there is an un-  
usually severe boll weevil infesta-  
tion this year in nearly all sections  
of the south, according to the de-  
partment of agriculture.

The infestation this year is the  
heaviest experienced in seven years,  
except 1916.

MINISTER KILLED  
BELGRADE, July 22.—Minister of  
the Interior Draskovic, of Yugo-  
slavia, was shot dead here by a  
young Bosnian communist. The as-  
sassin was arrested.

tion of Supervisor Finley is to pay  
for half of the paving from Lyon  
street south from East First street,  
Santa Ana.

## SINN FEIN HEAD TAKES BRITISH PLAN TO ERIN

BELFAST, July 22.—Sir James Craig, submitted the British government's proposal for Irish peace to the Ulster cabinet today.

The cabinet took no action.

United Press Leased Wire LONDON, July 22.—"President" De Valera carried Great Britain's peace offer to Ireland today.

"Although the immediate future is uncertain," he told a cheering crowd which bade him farewell at a railway station, here, "we have perfect confidence in the ultimate success of our cause."

"A just cause is bound to win," De Valera said. "It may take some time to achieve our ends, but success will certainly be ours in the end."

Notables in Party De Valera's party included Arthur Griffith, president of the Sinn Fein, Count Plunkett, Desmond Fitzgerald, Richard Barton, Alderman O'Neill and the Mayor of Dublin.

The Sinn Fein leaders left the peace situation distinctly pessimistic, although it was regarded as almost certain that conferences with Premier Lloyd George will be resumed within a fortnight.

The Sinn Feiners were greatly disappointed at the terms offered them by the premier. They regarded the proposals as indefinite and unsatisfactory.

Oppose Irish Break If the offer is the maximum, it was learned authoritatively, the conference will end without the waste of much time. The Sinn Feiners, however, do not believe that the government will refuse to clarify the proposals. Likewise, because of the government's preparedness, the Irish believe a breaking off of negotiations would be more to Lloyd George's advantage than to Sinn Fein's.

Lloyd George's offer, which was not specific, left De Valera and his aides ignorant of the degree of home rule which will be offered Ireland. They hold that the most vital of all questions.

## POSSE ON TRAIL OF MYSTERY KIDNAPERS

United Press Leased Wire SAN DIEGO, July 22.—Police and deputy sheriffs are scouring San Diego county today in the hope of apprehending two men in a high powered automobile who are said to have kidnaped a woman, as yet unidentified, in East San Diego at 9:30 last night.

The woman was going from a street car when the men drove up, seized her and carried her to the automobile. She struggled and attempted to cry out, when the men apparently choked her into submission.

J. C. Wright, who lives nearby, obtained a revolver and started in pursuit of the big car in his own automobile. He was soon outdistanced and gave up the chase.

Police and deputy sheriffs were summoned and the roads leading from the city were guarded until a late hour without success.

Mrs. Wright, who was near the scene of the kidnaping, heard one of the men say:

"Kill 'er Bill, if she won't shut up," she reports.

## 10 MIN. NAP ENDS IN LOSS OF BEARD

SAN FRANCISCO, July 22.—William Hood, famed engineer and builder of the Southern Pacific railway lines, was back in San Francisco today from his first vacation in forty years, but minus the whiskers he had been thirty years in raising.

Hood spent his days of rest at Yosemite.

His time being devoted to rest, he admitted he dozed in a barber chair in a Yosemite hotel.

"What's coming off," he shouted to the barber as he awoke.

"Your whiskers, sir," blandly replied the white coated razor wielder.

Hood looked in a glass and there he was, the same man minus the "mutton chops" he had so prized.

"Vacations are too expensive," Hood mused. "I hate to think of spending another 30 years replacing what I lost in a ten minute doze."

## DARCY TAKES COAST RING TITLE ON FOUL

SEATTLE, Wash., July 22.—Jimmy Darcy, of Portland, is the new middleweight champion of the Pacific Coast. Darcy was awarded the decision on a technical foul over Battling Ortega, former title holder, in the main event of the Elks smoker here last night.

Referee Adolph Schadt gave Darcy the title in the second round when he claimed that Ortega struck Darcy below the belt. Up to this time Ortega was playing a steady tattoo on Darcy's stomach. The new champion left the ring amid a boisterous "boo" and hisses from the crowd.

## 'KIDNAPED' MAN BACK ARRESTED BY MAYOR

SHARON, Pa., July 22.—Thomas D. Randolph, business man of Sharon, missing since Monday, and for whose return a \$50,000 ransom was said to have been demanded by alleged abductors, was arrested following his return to the home of his father-in-law, Boyce Fogle, on orders of Mayor Frank M. Gilbert. He was held without bail on the technical charge of being a suspicious person, it was said.

## TODAY IN CONGRESS

United Press Leased Wire House

Not in session. Major Bruce Campbell expected to appear before Bergdoll committee to answer charges of Mrs. Bergdoll that he accepted a bribe "to fix higher ups," and obtain the release of her slacker son.

Samuel Gompers will testify before immigration committee on Hawaiian labor situation.

Senate

Receives permanent tariff bill. Votes on Sheppard-Towner maternity and infancy bill.

Debate on Norris farm export corporation bill continues.

Labor committee inquiry into Mingo mine war continues.

Soldier relief hearing continues.

## NEWSPAPER MAN IS MODEST HERO, SAVES DAMSEL FROM DEEP

FOUND—A modest newspaper man.

Frank H. Bartholomew, of the Los Angeles bureau of the United Press, hid himself to Venice after "thirty" yesterday afternoon for a dip in the briny deep.

While engaged in the usual antics of one who is at once tall and handsome, Frank noticed a fair damsel in distress. "Bart" forthwith rendered heroic help to the beautiful maiden and her life was saved.

More than this, our hero would not divulge his name. When his identity became known and his co-workers began "pumping" him for a story he closed up like the proverbial clam.

Further developments are being watchfully awaited.

## CALIFORNIA WOMEN OUT OF FEDERATION

United Press Leased Wire CLEVELAND, July 22.—Mrs. Lena Lake Forest, of Detroit, was recommended today for re-election as president of the National Federation of Business and Professional Women's clubs by the nominating committee of the third annual convention being held here today.

Other nominations included: Miss Leta E. Kelly, Raton, N. M., first vice-president; Miss Fitzpatrick, Salina, Kas., corresponding secretary. California has withdrawn from the national federation. Miss Gail Laughlin, San Francisco attorney and former president, charged that the federation acted irregularly by incorporating yesterday without notifying federation members thirty days in advance of the convention.

The majority side of the convention denies the incorporation was without due notice. The incorporation committee was given power to act at the last convention. The federation is incorporated under the laws of New York.

The convention will close today.

## DISABLED STEAMER REACHES S. F. PORT

SAN FRANCISCO, July 22.—The steamer Admiral Farragut, disabled by a bursting steam pipe at sea late yesterday, arrived in port today in tow of the tug Sea Eagle.

Repairs will be made immediately and the vessel will resume her run to Seattle.

The Admiral Farragut yesterday towed the disabled steamer Queen into port here, and a few hours after her departure a steam pipe burst. One man was injured by the explosion and the engine was disabled.

The tug Sea Eagle picked up the steamer early today.

## HIGH WATER CAUSES \$375,000 DAMAGE

PORTLAND, Ore., July 22.—Damage from the recent high water in the Columbia and Willamette rivers reached \$375,000, Edward L. Wells, weather forecaster, estimates.

The figures covered loss in crops, prospective crops, live stock and wages. Most of the damage was caused outside of Portland.

## MR. HAPPY PARTY

## AMERICANS QUIT TURLOCK: JAPS BACK AT WORK

United Press Leased Wire TURLOCK, Cal., July 22.—Instead of driving the Japanese out of the Turlock district, the itinerant fruit workers have apparently had the order reversed.

The white melon pickers who have been in Turlock in large numbers, today began moving out in twos and threes. Only a few of those who were sitting around in the square several days ago waiting for work were to be seen here today.

On the other hand practically all of the deported Japanese have returned and have gone back to work and large numbers of those who were under contract to come here to work have arrived.

Favor Jap Laborers

Many of the canteloupe growers are refusing to hire the men who expected to get the jobs when the Japanese were driven out and are taking losses while waiting for sufficient Japanese labor to return.

Many of the growers declare they will go out of the canteloupe business and next year will put in a different crop.

Martin Palquiza, a local boy whose family is well known here, was under arrest today. The authorities charge him with having driven one of the trucks in which the Japanese were deported to Keyes. Although questioned in regard to the affair, he steadfastly refused to talk or give any details of the deportations.

Release Suspects The Japanese were on the streets today in large numbers, as they were before the trouble and appeared unconcerned. The white population of the district is still nervous as to the outcome of the affair.

Merchants are seriously alarmed at the attitude of the farmers who are taking losses rather than employ white labor, as the prosperity of Turlock depends on crop conditions in the district.

## HERMOSILLO MAN IS GIVEN CABINET JOB

MEXICALI, Lower California, July 22.—Daniel Venitez, secretary of the Hermosillo chamber of commerce, will be appointed secretary of state for the northern district of Baja California. Governor Ybarra informed the United Press in an exclusive statement today.

Venitez, an attorney, is prominent on both sides of the border. He is an old friend of Ybarra.

Venitez has accepted the offer, the governor said, and will assume office next week.

## WEAR SHOCK ABSORBERS ATLANTIC CITY, N. J., July 22.—E. A. McLaughlin, Illinois visitor here, wrote Mayor Bader protesting against the Venus De Flivver. Young women bathers should be prevented from disrobing in their cars, he said.

## Birthday of Mr. Olivari Marked With Lovely Evening Dinner

Mrs. Jack Olivari was the charming hostess at a cozy 6:30 o'clock dinner at her home, last evening, in honor of the birthday of her husband.

Covers were laid for twelve at the exquisitely-appointed dinner table, where huge golden dahlias were used for decorations.

The evening was spent with cards. The guests were: Messrs. and Mesdames Roy Boberg, C. M. Lindsay, Elan Roehm, E. B. Trago and Dr. and Mrs. Loersch.

## Past Noble Grands of Torosa-Rebekah Meet

Eighteen members of the Past Noble Grand association of the Torosa-Rebekah lodge met at the home of Mrs. George E. Shriver, 715 North Main street, yesterday afternoon.

A short business session was held at which it was decided to hold the next meeting on August 18, at the home of Mrs. Maude Swarthout, 111 French street.

A committee, composed of Mesdames M. E. McKee, Mary McAllister, Della Livesey, Susan Mullinix and the hostess served ice cream, home-made cake, candy and iced tea.

## Mrs. Arthur Trickey Entertains Club

The members of the Wednesday Afternoon club spent a pleasant afternoon with Mrs. Arthur Trickey, at her home near Irvine, last Wednesday.

The living rooms were decorated with lovely dahlias, as was also the dining room, where, after jolly hours were spent with fancy work and chatting, the hostess served a delicious two-course luncheon to the following:

Mesdames Farquhar, Fultz, Kiser, Holderman and Leinberger.

## Sons of Veterans Making Plans for Big Picnic

The following were admitted to membership in the Sons of Veterans lodge at their regular meeting, Wednesday evening, at the G. A. R. hall. Messrs. Joseph R. Moore, R. Earl Elliott, J. M. Stratton, John P. Thompson, Fred I. Davis, Floyd Thurston, F. C. Smith, J. H. King and S. L. Carpenter.

Thirteen applications for membership were also received.

A committee was appointed to make plans for an all-day picnic, to be held sometime this month at the Orange County park, at which the families of the members, and the Daughters of Veterans and their families will be guests.

Despite the warm weather there was a large attendance at the meeting and everyone was glad they had come, for the entertainment committee helped them forget the weather by serving heaping dishes of delicious ice cream.

## \$2,000,000 TO BACK FILM PRODUCERS

LOS ANGELES, July 22.—Bankers, financiers and business men of Los Angeles have come to the rescue of Southern California's largest industry—the making of moving pictures. Organization of a \$2,000,000 corporation, known as the Cinema Finance corporation, is practically completed here, and required documents are now on their way to the secretary of state at Sacramento for filing.

Of the \$2,000,000 authorized capitalization, \$1,000,000 will be preferred stock.

Subscriptions for a substantial portion of this stock have already been pledged by leading business interests of the city, it is understood, and the corporation will actually commence operations at an early date. Headquarters have been selected in one of the large buildings in the heart of the financial district.

The mission of the new company will be to enable picture producers to obtain money with which to make their films at a reasonable rate, instead of the exorbitant interest now said to be exacted from them in many cases.

## WANT JUDGE OUSTED FROM OIL HEARING

SAPULPA, Okla., July 22.—A formal request that he disqualify himself from hearing further testimony in a suit involving title to oil lands valued at between \$3,000,000 and \$5,000,000 has been filed here before District Judge Lucian B. Wright, by the Sinclair Oil and Gas company, the Minnesota Oil company, the Gilliland Oil company and other Tulsa interests.

The request was lodged on the ground that Judge Wright is now under arrest on a charge of having accepted a bribe for the decision he rendered in the \$2,000,000 Tommy Atkins oil land case.

The request also charged the judge with being interested in the litigation before him and with being intoxicated on the bench.

## HERE, BOY, HAND MRS. FIELD THE BELT

LENNOX, Mass., July 22.—A new fish story is being related in fashionable vacation circles here.

Mrs. William B. Osgood Field, who is on a trip in Canada, was carried on Monday a mile and a half up the Little Cascapedia river, Quebec, by a salmon weighing twenty-six pounds, according to her story.

The salmon was received here by Mrs. Field's sister, Miss Mary Pearl Field, at her home, High Lawn.

More than 16 per cent of the total employees in industrial occupations in England are women.

## Mr. and Mrs. Leroy Wardlo 'Victims' of Surprise by Party of Friends

A crowd of self-invited guests spent a most enjoyable evening at the ranch home of Mr. and Mrs. Leroy Wardlo, near Corona. Mrs. Wardlo, until her recent marriage, was Miss Elma Huff, of this city, and the employees of the Rutherford Millinery shop, with which she had been connected, made up largely the jolly surprise crowd.

Upon arrival at the ranch a large camp fire was built and around this the hungry party enjoyed a ham bake, with all the appropriate trimmings.

In the midst of the picnicking a large rattlesnake made its noisy appearance, scattering the crowd, until it was killed and the rattles confiscated.

After every crumb had disappeared the merry company went into the Wardlo-home, where they were entertained by Mrs. Harry Roetham, who revealed the secrets of the future to them with the aid of cards.

Mr. Forrest Roberts gave a vocal solo, accompanied by Mr. Wardlo on the violin.

The happy hostess was surprised with a number of pretty and useful gifts from her guests, who were: Mr. and Mrs. Forest Roberts, Mr. and Mrs. Lynn Pollins, Mesdames Harriet Bonnell, E. T. Latimer, Harry Roetham, Lola Fenwick, the Mesdames Harriet Susan Bryan, Pauline Huff, Pauline Morehouse, Pauline Latimer, Myrtle Rutherford and Mr. Elbert Huff.

The distinction of being the first woman to cross the American continent in an automobile is claimed by Miss I. T. Fleming.

## Arizonians Return To Native Haunts

Mr. and Mrs. Ira L. Hart and family left today over the Santa Fe for their home in Flagstaff, Arizona.

Mrs. Hart and children have been spending some weeks at the home of her parents, Mr. and Mrs. W. H. Crose, 622 Riverine avenue, and Mr. Hart joined them here July 1.

The "Stork" brought them a new daughter, Mary Jeanne, while here and she has concluded to try Arizona climate with them.

## Social Calendar

July 23—Illinois picnic, at Bixby park, Long Beach.

July 23—Picnic, Los Angeles Ohio society, Eagle Rock park, all day.

July 30—Indiana picnic, Exposition park, Los Angeles.

August 6—Picnic, Nebraska state, at Bixby park, Long Beach, all day.

## Personal

Mrs. Arthur Lyon and daughter, Margaret, 809 North Bush street, have just returned from an extensive trip through the east and the Canadian Rockies.

Mrs. C. W. Ellis and daughter, Marjory, 602 South Birch street, and Hallett Smith, of Wichita, Kans., have just returned from a motor trip to Coronado, where they were the guests of Mrs. T. C. Haller and family.

Jacob Fisher, art student and sporting writer for the San Francisco Chronicle, arrived home yesterday for a visit of three weeks with his parents, corner Lacy and Vance streets.

## Expect Large Attendance Annual Illinois Picnic Tomorrow at Long Beach

Many folks from the good state Illinois, who have adopted Santa Ana, are trying chicken, making pies and doing other picnicky things today, in preparation for the big annual picnic of the Illinois Society of Southern California. To be given at Bixby park, Long Beach, all day tomorrow.

No less than 25,000 former Illinoisans are expected at the picnic, it is said.

The "queen of beach" cities will be the mecca for all residents of the famous prairie state, past or present, who now are on the coast and, according to word received by the Long Beach committee.

Mayor C. A. Buffum will welcome the host of visitors and Governor Stephens also is expected to be one of the speakers of the day. Henry J. Brubaker will preside as chairman of the day and will lead the community singing.

The county headquarters will be opened early in the morning so old friends may meet and an old-fashioned basket picnic dinner will be served at noon, with hot coffee furnished by the local committee.

## Plans Made For Issuing Ebell Club Year Book

The executive board of the Ebell society met at the home of the president, Mrs. John Clarkson, 801 Minter street, yesterday afternoon.

Arrangements for getting out the Ebell club year book were made and other important matters were discussed, which are to be brought up in the future before the entire society.

## The Home a Pass Book Built

It's only a few years ago since he walked in the Farmers and Merchants Savings Bank and opened his savings account with \$10.00.

Today he lives in a cozy little home of his own—a home his pass book built.

Hundreds of Santa Ana's comfortable homes have been bought by small savings—by dollars laid away day by day or week by week to earn 4% compound interest. Today there isn't a man in this city who is able to save anything at all who cannot, in time, with the help of this bank, own a home of his own.

Here Are Some Interesting Figures

Put \$10.00 in a savings account at the Farmers and Merchants Savings Bank today. Add \$10.00 each week. In five years, at 4% compound interest, you will have \$2873.72—enough to make a very substantial down payment on a home of your own. Then by applying the \$10.00 a week in payment—instead of paying rent—you can gradually complete the purchase price and have a home instead of a pack of rent receipts.

Start YOUR Home-Owning Fund TODAY at

The Farmers and Merchants  
Savings Bank

## FEAR CLASH AS FARMER KILLS MASKED RIDER

United Press Leased Wire  
CHILDRESS, Tex., July 22.—The first death in the war on the "masked terror" caused a tense situation today in the community at Northfield, twenty miles from here.

C. L. Burden, a member of a party of masked men, was killed when the band went to the home of Henry Adams.

The masked men called for Adams to come from his home. A shotgun report from the house was the reply. Burden fell mortally wounded and died within a few hours.

### DENIES KLAN INVOLVED IN TEXAS RAIDS

ATLANTA, Ga., July 22.—Vigorous denial that the Knights of the Ku Klux Klan had any part in recent acts of violence in Texas and Florida were today voiced by Colonel William Joseph Simmons, imperial wizard of that organization, in an exclusive interview with the United Press.

"The knights of the Ku Klux Klan have been organized, not to tear down, but to strengthen the arm of the law in America and to clarify and preserve great fundamental principles," Simmons declared.

### ENTIRE STATE ON EDGE AS 'MASKED TERROR' SPREADS

DALLAS, July 22.—The "masked terror" held the entire state of Texas in a grip of apprehension and fear today.

Sixty-eight demonstrations by masked bands in which the victims were mutilated, beaten and covered with tar and feathers, have been reported since the first of this year. The first death due to the masked raids, which occurred last night, will be investigated.

A member of a raiding party was killed when the band approached a house near Childress, in the Panhandle.

Adjutant General George Curteon told the United Press that his hands are tied and his department has no power to bring the disturbers to justice. He said it was a matter for local officials to handle.

The Hillsboro Mirror published a notice bearing the alleged seal of a secret organization warning all "evil doers" and advising "certain married men" to spend more time with their wives.

To assure himself that members of the Ku Klux Klan were not implicated in recent instances of mob violence in Oklahoma and Texas, William J. Simmons, imperial wizard of the order, has detailed thirty men to investigate each of the cases. Simmons said he was confident that K. K. K. members did not participate in the lawless occurrences.

Action by the legislature to investigate the terrorism has been held up pending advice from the governor.

The staff of Buckingham Palace includes a head housekeeper, six assistant housekeepers, and fifty maidservants.

## Used Cars at Right Prices

There may be some car in the following list that is priced a few dollars higher than a similar one you have seen, but if you will come in and examine our car you will find the reason in the superior condition of our car.

### COUNTY AUTHORITIES AID L. A. POLICE IN SEARCH FOR GIRLS, 15

Orange county authorities were today co-operating with Los Angeles police in a statewide search for two 15-year-old girls who last night disappeared from their homes. The girls are Marjorie Brown, daughter of F. H. Brown, Glendale, and Gertrude Thompson, daughter of E. L. Thompson, Venice.

The disappearance was discovered by the father of Gertrude Thompson, who found a note which his daughter had left and which stated that they were going on the hunt of adventure and would be perfectly safe.

The families stated that the girls were fond of hiking and outdoor life and were used to camping out at night, following a motor trip which brought them from Boston to California.

Pictures and descriptions of the two were today sent all over the Pacific coast in an effort to find them. Each girl is described as about 5 feet tall, weighing around 105 pounds. Gertrude has dark brown hair and hazel eyes, and when last seen was wearing a red sport coat with a red checked gingham dress. Marjorie is described as having blue eyes and brown, curly hair.

### SHORT SKIRT DAY OVER, SAYS WOMAN

United Press Leased Wire  
NEW YORK, July 22.—The day of the short skirt is finished. Before autumn it will be replaced by the long skirt, a really long one, reaching clear to the ankles.

This alarming, or comforting prediction—depending on the viewpoint—was made today to the United Press by Mrs. Lydia Hoyt, famed as the most beautiful woman in New York society, who has just returned from Paris.

"The short skirt has already disappeared in Paris among the really smart," said Mrs. Hoyt. "They're wearing them full ankle length. The new skirts are not especially full, though I believe there will be more of a flare to them by fall; at present the only decided change is in the length."

"I expect that the short skirt will disappear in the United States very soon, too, before the end of the summer, even."

To the next question, implied rather than actually asked, Mrs. Hoyt hesitated before replying:

"I imagine it's safe to say there were signs that the corsets are coming back."

### 'COWDRILL' TO BE FEATURE OF PICNIC

Says Si Perkins to Miranda: "Be you goin' wid me ter that thar village social wat them thar Kiwanis fellers is goin' ter have down by Laguna Beach next Wednesday evenin'?"

Says Miranda: "Land sakes, Si, dew ye 'spect I'd overlook a big evenin' like wot them program committee's preparin' for the old an' young folk wot's goin' ter be present?"

"They tells me that it is goin' to be one o' them thar old fashioned picnics wat the old village peoples uster have."

"The boys and girls is going to dress in rags, an' they dew say ez how some o' them ol' gents is goin' to step high in disguises wat theys goin' ter wear."

"Thar's goin' to be lots of yellow-legged chickens steppin' around thar, only theys goin' to be fried an' then they will be steppin' around in the hands o' the chickens an' roosters wot don't have feathers."

"An' then, after the eats, thar's goin' ter be a entertainment in the pervillion wat's goin' ter be all class, from wat Stanley Reed tells me. The performance'll begin about 7:30 o'clock and when them what is goin' to execute the program hez completed their stunts the Kiwanis an' their guests is goin' to fine hands with the campers in an old Virginny reel, cowdrill and some other of the old time swings that we uster enjoy when we wuz kids."

"An' they dew say wat them thar John Oliver, the sky pilot wat mixes with us common folk an' does as 'Romans do when in Rome,' is goin' to call for the cowdrill. They says that he still remembers the sets an' how to call the different evolutions necessary to real enjoyment of the old-time dance. Who sez that's not goin' to be something excitin' an' interestin'?"

"No, Si, I is not goin' to be counted amongst those wat will stay to hum next Wednesday evenin'."

### MISSION HIGH SCHOOL CONTRACTOR ON JOB

Frank Hudson, contractor who was awarded a contract for the erection of the new high school at San Juan Capistrano, is losing no time in getting on the job.

Bids for the job were received last week, and Hudson on his bid of \$44,669 was given the contract.

Yesterday lumber and cement for the work were delivered on the grounds, and it is understood that excavations for the foundations started today.

The building is to occupy high ground on a tract east of the mission.

### AVOCADO FIELD DAY AT PUENTE JULY 30TH

A number of Orange county avocado growers are interested in an announcement that the chamber of commerce of Puente is to hold what it calls an avocado field day Saturday, July 30, starting at 10 a. m.

Avocado ice cream is to be served at noon. The meeting is to be held in a new walnut packing house. Visits to several avocado orchards are arranged for Dr. Will R. Manning of Fillmore, will give a demonstration of cleft grafting, and S. W. Funk of Charter Oak, is to demonstrate side grafting. Carter Barrett of Puente, is to talk on avocado pruning.

## PROBE WOMAN'S MYSTERY FIRE ALARM CALL

City Marshall Sam Jernigan was making an effort today to find out who telephoned Mrs. Harry Hansen, 412 Orange avenue, about 7 o'clock last evening and gave her information that prompted her to call out the fire department. The mysterious voice was that of a woman, who appeared to be excited.

Mrs. Hansen was hostess at a lawn party at her home when her telephone rang.

Answers Phone.  
She answered the call. A woman asked her if Mrs. Edward McWilliams was there. Mrs. Hansen told her that she was not.

"Well, Mrs. McWilliams' house is on fire and I wonder if you will notify the fire department?" said the mysterious voice.

"Certainly I will," said Mrs. Hansen.

And she immediately called the fire department. The fire whistle sounded and hundreds of motorists and pedestrians headed south.

No Sign of Fire  
When the firemen arrived at the McWilliams home they found all the doors wide open but no sign of a fire. There was no one in the house, the McWilliams family having gone to the beach.

The McWilliams home is of the colonial type with large windows on the west side. City Marshall Jernigan and others who have made an investigation are of the opinion that the setting sun reflected on the windows and that some excitable person thought the house was afire.

Not desiring to be held responsible for the mistake this person is avoiding notoriety by keeping mum.

NEW WELL ADDING  
TO WATER SUPPLY

One hundred and forty inches of sea water is flowing into the city's Olive street reservoir from the new well recently completed on the city's lot adjoining the reservoir.

While an analysis of the water has not been made yet it was declared today to be the safest of any flowing into the two big reservoirs for distribution to consumers.

A centrifugal pump is raising the water from a depth varying from 900 to 1040 feet. The casing is punctured at various points between 900 and 1040 feet and it is the opinion of Water Superintendent Wray that there is an inexhaustible supply. He predicts an increase in the production to 150 inches.

The municipal department has not been short on water and has been in position to take care of the peak demand in the hottest period without calling all of its wells into action.

The source of supply has been augmented recently by this well and by another completed some months ago on Baker street on property owned by Councilman W. A. Greenleaf. The latter is producing 100 inches. The flow from both is going into the Olive street reservoir.

The city has thirteen wells, ten in the vicinity of the power house on First street, the two new ones referred to and one on Fourteenth street, near the Lincoln school house.

Ten are on production and giving up 6000 gallons of the life-giving fluid every minute, or 8,640,000 gallons a day.

"Santa Ana is growing rapidly and the demand is increasing correspondingly," said Wray today. "We are keeping ahead of the demand by boring new wells and putting in to the minute equipment. It is necessary that we keep in advance of the demand. We do not propose to let the city suffer a setback through a shortage of water. We are developing a splendid system and one of which the residents should feel proud."

'GARDEN GARTER' IS  
INVENTED IN S. A.

J. V. Hilton, son of Mr. and Mrs. C. E. Hilton, has invented and is manufacturing a clever device for holding a hose used in springing a lawn. It is known as a "Hozolder" or "Garden Garter."

Several hundred have been distributed in the city in the past day or two by Crandler and Son as an advertising feature. The device sells for 50 cents, but has not yet been placed on the market.

It is made of coppered steel wire and is so constructed that points may be sunk into the lawn to fasten the holder. The wire is twisted into a circle at two points. The hose is fastened in the holes by the wire stands forming springs and holding the hose securely in the desired position. It is claimed that it is more satisfactory in service than the average sprinkler.

It was stated today that the device has met with instant favor wherever shown and that parties already have offered to place orders for as high as 25,000.

The "Hozolder" is being manufactured in a small way at the Hilton home and plans are being developed for manufacturing on a large scale.

### P. O. TESTS SCENE TO BE FIXED BY NUMBER OF FOLK WHO APPLY

The number of applicants gathered at the postoffice here tomorrow morning to take the examinations for the position of postmaster in any one of the five third class offices in Orange county where vacancies will occur, will determine the place where the examination will be held, today stated L. F. Harvey, local secretary for the civil service commission.

If only a few applicants appear, the examination will be given by Harvey at the courthouse, but if there are a considerable number of persons wishing to take the examination, then they will be taken to the junior high school, where a larger crowd may be more easily handled.

The intention is to meet early enough at the postoffice that all preliminaries may be completed and the actual work begun by 9 o'clock, according to Secretary Harvey. The postoffices where vacancies will occur are located at Brea, Balboa, Laguna Beach, Newport Beach and Yorba Linda.

Will Seek Estate of  
STEPHEN GIRARD

MILWAUKEE, July 22.—A legal contest to obtain an estate of more than \$20,000,000, part of the immense property accumulated by, Stephen Girard, in Philadelphia, following the Revolutionary war, has been begun by Miss Susan Shabach, telephone operator at a Milwaukee hotel, and other Milwaukee relatives.

Miss Shabach and her relatives are direct descendants of Dominic Girard, cousin and only heir-at-law of Stephen Girard. Attorney Frederick F. Groelle, representing Miss Shabach, left for Philadelphia today to press the claim.

Wouldn't Exchange With  
Millionaire

"After five years of suffering with stomach trouble I think I know all about it. But thanks to Mayr's Wonderful Remedy, I am enjoying good health again. I know of a millionaire who is very bad with stomach trouble, but he won't take any patent medicine. In his present condition I wouldn't exchange with him."

It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. All druggists.—Adv.

Red Cross Flashes  
'S. O. S.' FOR PUEBLO

The Pueblo Relief fund needs \$250,000 more to conduct the rehabilitation work placed in the hands of the Red Cross relief operations, according to a statement by W. Frank Persons, vice-chairman of the national society, who has just visited the scene of the disaster, according to word reaching here today from San Francisco.

Red Cross chapters in the Pacific division have been advised to call public attention to the imperative need and to transmit funds collected either to the division office in San Francisco or to the treasurer of the Red Cross relief operations, Percy Hagerman, Colorado Springs, Colo.

Persons' statement concerning the work being done follows:

"The governor of Colorado and citizens of Pueblo and La Junta have full confidence in the Red Cross and relief work in both places is fully in its charge."

"There is now no need for guesses or misunderstandings. The need is great and the facts are clear. There are 2025 families in the Pueblo district alone and 139 more in the La Junta area that need help in varying degrees. Most of these families have lost their furniture, bedding and clothing. Many have lost the houses which they owned in whole or in part."

"In the Red Cross relief fund there is now \$300,000 in cash. Making due allowances for all supplementary funds of a local or special nature, at least \$250,000 more is imperative if the conditions and the means of self-support are restored to those who have lost all."

## PLAN FUNERAL FOR EX-UNDER SHERIFF

Preparations were completed today for holding funeral services for J. H. ("Jack") Iman, former under sheriff of Orange county, at the Smith & Tutill parlors tomorrow afternoon at 2 o'clock. The Rev. Paul E. Wright will officiate.

Completion of the plans was made possible by receipt of a telegram from Mrs. Charles Crouch, a daughter, residing at Eureka, advising that she will arrive here tomorrow morning.

Iman expired suddenly at Huntington Beach Wednesday night. He was a member of the police force of that city, and prior to his employment there was a police officer at San Pedro and Anaheim and under sheriff of Orange county, being in the latter position for six years prior to eighteen months ago.

There are 2025 families in the Pueblo district alone and 139 more in the La Junta area that need help in varying degrees. Most of these families have lost their furniture, bedding and clothing. Many have lost the houses which they owned in whole or in part."

"In the Red Cross relief fund there is now \$300,000 in cash. Making due allowances for all supplementary funds of a local or special nature, at least \$250,000 more is imperative if the conditions and the means of self-support are restored to those who have lost all."

Wouldn't Exchange With  
Millionaire

"After five years of suffering with stomach trouble I think I know all about it. But thanks to Mayr's Wonderful Remedy, I am enjoying good health again. I know of a millionaire who is very bad with stomach trouble, but he won't take any patent medicine. In his present condition I wouldn't exchange with him."

It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. All druggists.—Adv.

Red Cross Flashes  
'S. O. S.' FOR PUEBLO

The Pueblo Relief fund needs \$250,000 more to conduct the rehabilitation work placed in the hands of the Red Cross relief operations, according to a statement by W. Frank Persons, vice-chairman of the national society, who has just visited the scene of the disaster, according to word reaching here today from San Francisco.

Red Cross chapters in the Pacific division have been advised to call public attention to the imperative need and to transmit funds collected either to the division office in San Francisco or to the treasurer of the Red Cross relief operations, Percy Hagerman, Colorado Springs, Colo.

Persons' statement concerning the work being done follows:

"The governor of Colorado and citizens of Pueblo and La Junta have full confidence in the Red Cross and relief work in both places is fully in its charge."

"There is now no need for guesses or misunderstandings. The need is great and the facts are clear. There are 2025 families in the Pueblo district alone and 139 more in the La Junta area that need help in varying degrees. Most of these families have lost their furniture, bedding and clothing. Many have lost the houses which they owned in whole or in part."

"In the Red Cross relief fund there is now \$300,000 in cash. Making due allowances for all supplementary funds of a local or special nature, at least \$250,000 more is imperative if the conditions and the means of self-support are restored to those who have lost all."

## SOUNDS CALL TO FAITH IN CAL. INDUSTRIES

"Sit tight and have faith in California's industries."

This is the keynote in a statement which was issued by Paul A. Sinsheimer, vice president of the Mercantile Trust company, San Francisco, and which was released for publication at noon today by the bureau of economics, Los Angeles.

"The temporary difficulty of bringing industry into its normal relationship, with all that this entails, has naturally created a certain confusion," says Sinsheimer, opening his statement.

"It certainly does not warrant the brooding pessimism which shows a tendency to become fashionable in certain quarters," he continues. "The experience is not pleasant, but it is a passing, and not a fixed, condition."

Sinsheimer, widely known as an expert on the subject of public utility securities, was for five years bond expert for the California railroad commission, resigning that position to become vice president of the Union Trust company of San Francisco.

During the period of the war he served as expert adviser to the capital issues committee in Washington.

### Sounds Optimism Note.

"He sounds a note of optimism, urging all Californians to get behind the organizations of capital which are engaged in developing the state's industrial resources," says the bureau of economics. "His statement deserves the attention of all who are interested in California's progress and development."

Continuing, Sinsheimer says:

"A country's economic condition is fairly well reflected in its national credit. The credit of the United States has become the standard of the world. This is the real barometer for financial forecasting."

"We are inclined to forget all that our country has met and successfully overcome. Washington undertook the rehabilitation of a nation ravaged by war, whose bonds had been selling at twenty-five cents on the dollar. Five years later they were selling at par. It was the relief of the prevailing economic distress of the time that Washington regarded as his first duty in assuming the presidency. His words are worth recalling. He wrote to Lafayette:

Quotes Washington.

"My endeavors shall be unremittingly exerted, even at the hazard of former fame or present popularity, to extricate my country from the embarrassments in which it is entangled through want of credit; and to establish a general system of policy, which if pursued will insure permanent facility to the Commonwealth. I think I see a path clear and direct as a ray of light, which leads to the attainment of that object. Nothing but harmony, honesty, industry, and frugality, are necessary to make us a great and happy people. Happily the present posture of affairs, and the prevailing disposition of my countrymen, promise to co-operate in establishing those four great and essential pillars of public felicity."

"The four great and essential pillars which Washington enumerates are as necessary today as then—HARMONY, HONESTY, INDUSTRY and FRUGALITY."

"The wealth of a nation does not lie in things, but in its people. There was as much natural wealth in America when Columbus discovered it four hundred years ago as there is today. The difference has been wrought by the intelligence and energy of a great people."

Will Be Difficulties.

"The complaint today is 'over-production.' No one ever heard of a people starving from over-production. There will be difficulties, and yet more difficulties, to be overcome, but the application of Washington's formula by a persevering people will, as in the past, work the changes necessary to restore economic well-being."

"Nowhere will this restoration come more speedily or more forcibly than in California. When this restoration once begins, the industries of the state will be pressed hard to keep pace with the growth that is certain to come. The romantic story of California has not been completed; it is in mid-swing, and the brief history of the state is but a forerunner of what is to be."

### BIG CACHE OF TNT FOUND NEAR PASADENA

PASADENA, July 22.—Enough of the powerful explosive called TNT to blow the city of Pasadena to smithereens was found in a cache near Johnson lake, San Rafael heights, by two boys this morning.

The lads, John and Richard Schuster, found a box of the stuff hidden under a tree on the shore of the lake. They did not quite know what it was but surmised it was explosives. They brought samples to the Pasadena police station.

A detail of officers was dispatched to the scene at once and brought the box to headquarters. There the city chemist determined it was TNT.

When the police learned this, they began to be uneasy about keeping the stuff at headquarters. They offered it to the city water department, but Superintendent Morris declined the gift with many thanks. Then they offered it to the street department, but Superintendent Beyer also declined it. The police hastily proffered it to the county road department. Pending an acceptance from that department, an uneasy "copper" is guarding it against accidental tampering at headquarters.

The police believe that the explosive was cached in San Rafael Heights by criminals, who, doubtless stole it from some construction crew.

### MOTHER GIVES LIFE TO RESCUE DAUGHTER

MERCED, July 22.—Re-entering her burning home near here to save her daughter, Mrs. Ellen M. Sterret, 55 years old, was burned to death.

Copyright 1921 Hart Schaffner & Marx

You know better than we do what it takes to satisfy you. So we put it up to you; you are the judge; anytime you want your money back, it's refunded cheerfully.

**You pay only \$45 for a Hart Schaffner & Marx blue serge suit worth much more**

The fabrics are all-wool, the dyes are fast; the styles are the latest and best. We'll let you judge the values for yourself

You'd better get yours early; every man needs a serge suit; they're not going to let this get by them

THE HOME OF HART SCHAFFNER & MARX CLOTHES

## A Credit to Santa Ana

- We frequently have world-wide travelers come in and compliment our selection of artware.
- They tell us that nowhere have they found stocks that excelled ours in quality and distinctiveness at the moderate prices quoted here.
- We might have considered this mere flattery had they not backed up their assertions with liberal purchases.
- A member of our firm recently made a tour of California's largest cities to seek new ideas for making this shop more serviceable to the community.
- We found that our methods, designs, displays and selections compared favorably with any other and outclassed most of them.
- We returned to Santa Ana more enthusiastic than ever over our own shop, our city and our county, convinced that we have as good as the best and much better than the rest.
- You are always welcome to come in and look around.

**OLD S. A. ALARM BELL'S MOVED FIFTH TIME SINCE 1887**

Iron-Throated Signal Giver Sees City Grow From Mere Village

**COULD TELL MANY TALES**

Fire Department Undergoes Many Changes; Hose Cart Sprints Are Recalled

"Hear the loud alarm bells—What a tale of terror now, their turbulency tells!" And thereby hangs a tale.

For 34 years Santa Anans have been warned of fire by the turbulency of the same fire bell. But today the bell is not turbulent. It is quiet and peaceful while everything about it is turbulent instead.

For the fifth time since it was brought here in 1887 the big bell has changed its home. Workmen have removed it from its place at the old fire hall across from the library to the new department building on Sycamore between Second and Third. It is now suspended from a brand new rack above the hall and is very quiet these days while much pounding, sawing and scraping is going on around it.

**Sees City Grow**

The old bell, loved by the "old guard" of volunteer firemen, has been here while the city has developed from a tiny village into a prosperous city.

It has gone through the fire department growth from the days of the two-wheeled cart to the day of four speedy auto trucks, and if bells could talk the big piece of shaped iron could tell many an interesting tale about the "old days."

The bell was first brought here in 1887, when the fire house was located on Fifth street between Sycamore and Broadway and has taken part in every successive move of the department.

First it went to where the post office is now, then to the present location of the public library, then to where Leipsic's store is now, then to the present fire hall across from the library and now it is the first thing to be shifted to the big new fire building still under erection.

**Many Changes Made**

The Santa Ana fire department in that time has undergone many changes. A four-wheeled pumping affair was the first local method of fire fighting. A two-wheeled cart was next introduced.

Many are the tales told of the department in those days. At least one fireman then is still a member of the department. He is George F. Spangler, who is at present assistant fire chief.

"The biggest athletic event of the year in Santa Ana then was the annual races between the local firemen and those from Redlands, Riverside and San Bernardino," said Spangler today in recalling the days of the two-wheeled cart.

"The race would be staged on Fourth street between Broadway, then called West street, and Sycamore. The chamber of commerce would put up a \$50 prize and Santa

**HERE'S MARTIAL MOVIE COMBINE**

Hugo Ballin is an artist and a movie actor. He is the first director to film a serious drama without a subtitle. It is "The Journey's End." Mabel Ballin, his wife, is the heroine of his pictures.

**WEIGH BABIES ON P. O. SCALES? NO CHANCE!**

And now Uncle Sam says to the amalgamated order of postmasters, "Thou shalt make the postal service more human!"

At least, that is the popular construction which may be placed on the recent edict of the aforesaid uncle, who used Postmaster General Will G. Hays as his spokesman, and urged certain improvements of the policy of the offices scattered to the four winds throughout the country.

Just how can such a ruling be observed in the local office?

It is said that in Minneapolis, Postmaster Purdy of that city has ordered that all drivers of parcel post wagons permit mothers of infants along their routes to weigh their babies daily, using the scales of the wagon for that purpose.

Surely, it is pointed out, that is humanizing an institution.

**Could Keep Record**

Each mother would have the opportunity to judge of her child's progress and growth by the simple means of keeping a record of its weight, thanks to Uncle Sam and Postmaster Purdy.

But Santa Ana has no parcel post wagons.

"We have a couple of pushcarts in which the packages are sent out,"

(Continued on Page Ten)

**ARE MEN VAIN? CAMERA FOLKS' VIEWS DIFFER**

Some Say Mere Males More (Fussy) Than Women, So There!

By ELEANOR ELLIOTT

Once more the smooth-running machinery of life in Santa Ana is in danger or being impaired by the monkey wrench of argument.

And it is all over the subject of vanity.

Is vanity an attribute of the feminine sex alone? Or is man as vain in his own peculiar way as woman has always been accused of being?

The monkey wrench received its first toss at the recent gathering of the Photographers' association in Buffalo, New York, when the association president, Howard D. Beach, made the statement that men were as vain as women, and then presented an array of arguments to prove his point.

Disregarding the fact that women might not choose to be the acknowledged standard by which grades of vanity are judged, just what local significance does the most question possess?

**Are Santa Ana men vain?**

Does the mere fact of having a picture taken argue that vanity is the underlying reason?

**Not At All, Says Man**

"Are men vain? Oh, not at all," was the sweeping assertion of J. E. Gibson of the Gibson studios, 415 North Broadway.

"Having a photograph taken is not at all the result of vanity on the part of a sitter," the speaker continued. "More enters into it than a mere desire to have a representation of features. But whatever the impelling reason for a man's having his picture taken, it is not vanity."

Gibson stated that the greater men are, the freer from vanity they are.

"Greatness is characterized in almost every case by extreme simplicity," he said. "So, with the gentleness, and humbleness which great men possess, how could one say that vanity impelled them to have photographs taken? We have subjects among the men who are as careful about the arrangement of their hair, and the chance of a wrinkle in their coats, as any vain young girl of 16, but they belong in the 'lounge lizard' class and are really very few in number."

**Seek Reality, Claim**

"Reality is the effect in pictures that most men desire, for they have no desire to be made pretty Miss Nancys."

An interview with the proprietor of the Mary Smart studio, 1114 W. Fourth street, brought out another angle.

"Men are very self-conscious when they wish to have a picture taken," was the statement by Miss Smart. "They always seem just a little ashamed and as though they feared they might be caught—something like the little boy who plans a raid on the jam shelves."

One and all, they seem to feel that there must be an explanation offered for their desire to have a picture taken. And that in itself, would indicate that they have a certain vanity, else why try to conceal the fact that they are as fond of seeing a picture of themselves as any one?

**For Business Purposes**

"They really assure me that the picture is needed for business purposes. And now and then they say that they have yielded to the urging of a mother or a wife who wished one admit that he wanted it for the same reason that a girl would want a picture."

"As to the minor details, I find that men are even fussier than women when it comes to the appearance of their clothing and the smoothness of the hair."

At the Eastman studio, on Fourth street, Mildred Eastman produced a photograph of a handsome youth which had been slightly tinted to give it an exceedingly lifelike appearance.

"There is the best answer I can make to the question as to the vanity of men," she said, mirthfully. "Could anything in the world but vanity have chosen that pose and achieved its careless elegance? Could any picture had been chosen to have the picture had been chosen to have the first lieutenant mustache speak vanity as pronounced as that of any of my own sex?"

Miss Eastman stated that her men patrons all like the colored photographs, and will choose to have in that manner almost every time.

"Men are harder to photograph than women; perhaps it is because they have less experience, but they are more self-conscious and it is harder to get them to relax so that the real man is apparent instead of a mere tailor's model having his picture taken."

**Psychology Is Factor**

The fact that psychology enters largely into the business of photography was emphasized by Miss Eastman. Men are less susceptible to suggestion, according to her experience, than women. Then, when the picture is completed, they are far freer with their criticisms, which, according to Miss Eastman, shows that their vanity is touched when the result is anything short of the perfection which they desire.

"It is not vanity in either sex that brings a subject to a photographer," was the opinion offered by John F. Baber at the Baber studio in the Spurgeon building. "It is a natural desire to have one's picture repre-

(Continued on Page Ten)

**NEW POOR MAN'S COURT TO BE ESTABLISHED**

Small Claims Tribunal To Serve As Means of Collecting Little Debts

Does Tom, Dick or Harry legitimately owe you a sum not in excess of \$50?

If either of the three persons named, or any other person for that matter, owes you less than \$50 you may seek to collect it through the "Small Claims Court" which is to be established here July 29, according to announcement today.

This court, commonly known as a "poor man's court," is authorized by a bill passed at the last session of the legislature. It is to be conducted by the regular township justices.

Justice of the Peace J. B. Cox will preside over the court here. He stated today that he had already received a court docket, the necessary "blanks" and other material, and that the court would be opened in accordance with the law Friday, July 29.

**To Collect Small Debts.**

The purpose of the court is to enable a creditor to collect small debts without delay or expense. Attorneys are not to be allowed to appear for either the plaintiff or defendant and no fees are to be charged.

Proceedings before the "Small Claims Court" are to be informal and no claim for money exceeding \$50 in amount will be heard.

The new law was originated by Assemblyman Rosenheim of San Francisco. Through its passage seven new sections were added to the code of civil procedure.

Methods of carrying out the work of the court were described today by Justice Cox as follows:

A creditor desiring to bring suit against anyone owing him money not exceeding \$50 must appear before the court and make affidavit to the debt. In not less than five days nor more than 15, both creditor and debtor must appear in the small claims court.

**Must Present Evidence.**

Both of the principals in the action must then present such evidence as they have and the judge makes whatever award he considers proper.

Assigned claims or suits to recover goods will not be heard in the court.

The defendant will have the right of appeal but the plaintiff cannot appeal.

Attorney's fees of \$15 must be paid the plaintiff by the defendant in case the defendant appeals and loses in the higher court.

Subpoenas are to be served by registered mail.

**L. A. GIRL ESCAPES TERM IN JAIL HERE**

Miss Beatrice Zadeck, 708 Maple avenue, Los Angeles, has escaped a term of 25 days in the county jail here by making good a check for \$25 which she handed to Judge Cox in payment of fine which he imposed upon her for driving her automobile in a reckless manner.

The check was returned from the bank marked "insufficient funds." Judge Cox wrote the young woman and told her that unless the check could be honored immediately she would have to serve 25 days in jail. The check was put through the bank for the second time and Miss Zadeck having replenished her account in the meantime.

**WILL FACE DIVORCED MATE IN COURT HERE**

Mrs. Angelena Cohen, of Los Angeles, recently granted an interlocutory decree of divorce from Harry Y. Cohen, was scheduled to appear in the justice court here this afternoon to press a statutory charge against Cohen.

Mrs. Cohen had her husband arrested here about six weeks ago, after trailing him north from Del Mar, where she is alleged to have discovered him in a cafe with another woman.

Subsequent to this her divorce case was tried in Los Angeles. She charged her husband with cruelty and he filed a cross-complaint accusing her of misconduct.

**NEWS OF GAS FORCE IN WELL RECEIVED**

The force behind the oil issuing from the flowing well of the Blair Oil company, at Lost Soldier, Carbon county, Wyoming, is indicated in the fact that it was sufficient to lift a column 12 1/2 inches in diameter 1270 feet, according to The Wyoming Oil News, a copy of which reached here today.

This information was of great interest to the large number of Santa Anans who own the Wyana Oil company, which is sinking a well near Rawlins.

The company's property is on the Mahoney Dome, about the center of the Lost Soldier oil district. It is stated that several oil companies in the district have at least 500,000,000 feet of gas shut in on this anticline.

Liggett-Bemis Company will save you money on your lumber bill. Phone 1922. 601 East Fourth.

Home made candies at home made prices. Nougats, fudges, creams, Licor Candy Kitchen, 211 West 4th. Phone 237 for good dairy products.

**OWL PERCHES ON FALL HAT**

It's a wise bird that lights on the smart woman's hat this coming fall season. The Owl—Minerva's bird—gives the latest "hoot" in fall millinery. This smart Joseph model bears the bird of wisdom as though it were on Minerva's helmet. The beak forms the peak of the turban, the bright eyes shine out from their natural colored feathers as though announcing their knowledge of fashion's decrees.

**WANT TO ASSIST IN FENCING UP BOYS' POOL?**

How many men will volunteer to go to Camp Jotham Bixby in the Santiago canyon tomorrow afternoon and help build the wire fence around the scouts' swimming pool?

The S. O. S. call went out today from scout headquarters and it is hoped and expected that a sufficient force of men will respond to put the work through in short order.

No definite hour in the afternoon has been set, but anyone having a little spare time to give is asked to come when it is most convenient, as his help will be acceptable at any time.

The scouts have secured permission to use a reservoir on the Farnsworth-Rutan property, provided a high wire fence is put around the reservoir so that the pool will not become a public gathering place.

Boys in camp are on the last half of their first week. The routine of instruction is broken with hikes into the hills.

The names of the boys in camp follow:

Overton Lahr, Dudley Crawford, Frank Miles, Loren Nelson, Glen V. Hallock, Vayette Birtcher, Lawrence Bowles, Paul Sloop, Jim Fitzgerald, Leonard Field, Eddie Swift, Clarence Logue, Ben Kniss, Howard Upton, Harold Dill, Merton Canfield, Joe Balcom, Joe Masse, Fred Tinsell, Lyle Weber, Herbert Smith, Chas. Farrell, Ward Hutton, Leslie Burrell, Harold Breeding, Kenneth Sloop, George Horton, Earl Dahlman, Blythe McCausland, Frank Thompson, Alfred Shuly, Fernando Rodriguez, Lawrence Campbell, Walter Hinman, Fred Schaffer, Elton Snively, Glen Rockwell, Elwood Cordes, Claire Hansen, Fred Kelly, Francis Horton, Howard Wing, Merle Howe, Allen Wisner, Master Hashow, Earl Parks, Clyde Collins, Leslie Jorgensen, Charles Parsons, Paul Wright, Robert Jensen, James Holland, Jack Crawford, Keith Beisell, Raymond Dickson, Robert Gilbert, Jack Taylor, Thomas Crawford, Louis Dickson, Charles Seales, Nick Sumners, George Bradley, Frank Galpin, James Sullivan, Randolph Bell, Charles Brawley, Jack Clarnet, John Reynolds, Newell Vandernast, George McConnell, George Parry.

A few more registrations for next week can be received.

G. H. Randall of Santa Ana, has served notice on the Boy Scout leaders that the road across his land that has been used in getting to the scout camp will be closed by him next Tuesday and thereafter.

He said the gate would be locked. S. J. Cornell and Dr. M. A. Patton yesterday went over an old road on the north side of the creek and found it good enough for use. Picks and shovels were used yesterday to get the road into shape, and more work is to be done today and tomorrow. Friends and relatives of boys in the camp who wish to visit the camp can use this road now.

Those wishing to go to the camp by this road are directed to leave the Santiago boulevard at a point near the top of the embankment on the north side of the Santiago creek, near the crossing. The road goes north, then east up the canyon. It will be posted.

This same road will be followed by those who go tomorrow to help fence the Farnsworth-Rutan reservoir, only the workers need go no farther.

Further than the Farnsworth-Rutan orchards.

Posts for the fence have been donated by the Barr Lumber company.

**BANKER IN MANN ACT CASE IN NEW BATTLE TO DODGE JAIL HERE**

Attorney Theodore Stensland in Los Angeles today was at work on arguments to be presented before U. S. District Judge Bledsoe Monday in support of his plea for a writ of error in the case of Peter B. Hovley, Brawley banker and admitted white slaver.

Hovley was to have given himself up yesterday and be brought to Santa Ana to spend a year's imprisonment in the Orange county jail.

Several suspensions of sentence had been allowed Hovley and his last expired yesterday. Stensland, his new attorney, appeared before Judge Bledsoe yesterday and requested a writ of error on the ground that the court had assumed improper jurisdiction in the case.

The court allowed Stensland until Monday to prove why a writ of error should be granted the Brawley banker. Hovley in this way gets until Monday to begin serving his sentence. If the writ of error is proved the case will be reopened in the courts.

Hovley pleaded guilty to a violation of the Mann Act in bringing his niece by marriage, Mrs. Barbara Stahuldymen, from Chicago to Los Angeles for an immoral purpose.

**CALIFORNIA DAY AT SEDALIA FETE, PLAN**

With more than seventy Orange county folk who formerly were residents of Missouri making inquiries at the local office of the Salt Lake about the Missouri Centennial exposition at Sedalia, Mo., August 8-20, plans were being developed today for a meeting of the Missouri Society of Orange county to be held at the city hall, Orange, next Monday evening at 7:30 o'clock, to discuss plans for a large number joining an excursion from Southern California.

It is expected that definite arrangements will be made for organizing a party from this county and that plans will be developed for doing some effective advertising.

Tuesday, August 9, has been designated as "California Day" at the exposition, according to word reaching here today. No other state will have such recognition. It is expected that there will be more former residents of Missouri present from California than from any other state and because of this "California Day" is to be the big "homecoming" day of the centennial. A program for the day is being arranged that is expected to put California over in a big way, from an advertising standpoint.

The California delegation will leave Los Angeles over the Salt Lake Thursday evening, August 4.

**TEST FIGHT FILM LAW**

NEW YORK, July 22.—Motion pictures of the Dempsey-Carpentier fight are to be shown in several theaters here tomorrow to test the constitutionality of the federal law barring fight films from interstate commerce.

Dr. Mark Myers, Urologist, 110 1/2 East Fourth, is home and ready to see patients.

Further than the Farnsworth-Rutan orchards.

Posts for the fence have been donated by the Barr Lumber company.

**103,000 BOOKS CIRCULATED BY S. A. LIBRARY IN PERIOD OF YEAR**

15,532 Increase Is Made In 12 Months' Period, Reports Reveal

**7891 HERE HOLD CARDS**

Council Asked For 15-Cent Tax Rate, Same As Last Year

Santa Ana has just finished its biggest year in books.

From the Santa Ana public library alone, 103,000 books were circulated among patrons of the library in the year ending June 30, 1921.

That was an increase of 15,532 over the previous year.

Which proves one of two things; either—

Santa Ana's population is increasing between 15 and 20 per cent a year, or—

Santa Ana readers acquired the reading habit.

But one needn't depend on those figures alone to determine which of the two things is proven, for there are other figures also to be found in the annual report of the librarian, Miss Jeanette McFadden, and the library board.

The number of cardholders of the library June 30, 1921, was 7891; June 30, 1920, the number was 6355. The increase is 1056.

Proves S. A. Growing

Which proves that Santa Ana is growing and which points to the reason why 103,000 books were circulated by the Santa Ana public library in the past year as against 87,468 the year previous.

The annual report of the library board is on file with City Clerk E. L. Vegely, placed there by the board, Dr. C. D. Ball, president; J. S. Smart, Charles A. Robinson, Mrs. W. B. Tedford, secretary, and Mrs. P. L. Tope. This report is also a petition, in that it asks the city trustees to allow the library a tax rate of not less than 15 cents, the same as last year.

"The library is performing a great educational work, second only to that of the public schools, and is deserving of every encouragement at your hands," says the petition of the library board.

Included in the annual report of the library board, is the annual report of the librarian, filled full of intimate details of the excellent work that the library has done.

**Statistics Play Part**

Statistics play a large part in the report. They point conclusively to the large amount of work that is accomplished by Miss McFadden and her four assistants. Although the library has grown nearly 20 per cent in the last year, the staff has not been increased.

With a rearrangement of the library's rooms and remodeling of the library, the institution is better able to handle its patronage.

"The library aims to make itself more useful to the community year by year," said Miss McFadden today. "We consciously increase our stability. That is, in buying new books we favor the purchase of substantial books. There is no such thing as buying all the fiction books that people might want. Such a thing is impossible. We have added more books of a non-fiction nature than we have fiction books, in the past year. We plan to satisfy our fiction-reading patrons while at the same time in selection of new books giving the preference to non-fiction."

**Buy Number of Copies**

"Of the more popular fiction books, we buy a number of copies. For instance, lately there has been a great call for 'Main Street.' It is interesting to hear comments of readers on some of the books. With 'Main Street,' said Miss McFadden, and others are completely disgusted."

In Santa Ana, as in all public libraries, fiction represents the large share of circulation. Santa Ana's library has developed itself as a source for readers of solid and substantial books, and its usefulness in that regard is growing rapidly.

During the past year more than 70 per cent of the books circulated were fiction.

Figures showing the kinds of books that were circulated by the library during the year ending June 30, 1921, as compared with the year ending June 30, 1920, follow:

| Here's Table |        |        |
|--------------|--------|--------|
| Kind—        | 1921   | 1920   |
| Magazines    | 4,084  | 3,321  |
| Fiction      | 72,449 | 61,681 |
| Philosophy   | 847    | 743    |
| Religion     | 788    | 701    |

## ARE MEN VAIN? CAMERA FOLKS' VIEWS DIFFER

(Continued from Page Nine)

sentation in the possession of those who would most appreciate it.

"Men have no great liking for having pictures in the first place. They avoid going to a studio as much as possible, but when one does wish a picture taken, he is by far the hardest subject to handle. The small details which a woman considers non-essential are very important to him and I have had cases where a man has refused a picture which I considered an artistic success so far as character delineation and pleasing results were concerned, because his necktie wasn't exactly straight. Whether that might be considered vanity, I would hesitate to say."

Rabe stated that in two years' work in the moving picture studios, he found that the men actors were immeasurably vain than the women, a fact he attributes to the men's dependence on their looks for their bread and butter, a consideration which is not quite so great with women.

## DATE FOR RECEIVING BIDS IS SET FORWARD

No bids being received on either the \$20,000 issue of bonds for the Bay City school district or the \$25,000 issue of the Yorba school district at the last regular meeting of the board of supervisors, the date for receiving bids has been advanced to next Tuesday. The board has been attempting to dispose of the Bay City school bonds for more than two months and the Yorba school bonds have been on the market for about three weeks.

## WEIGH BABIES ON POST SCALES? HEH?

(Continued from Page Nine)

today stated Postmaster C. D. Over-shiner. "But the wagons aren't equipped with scales, so I fear we can't follow the example set us by the gentleman from Minneapolis."

"Not that we would not like to, of course, for the policy of our office has always been to extend all the courtesy within our power. But we are only human, and can't achieve the impossible, and helping mothers keep a record of the increase in the weight of their babies, just at present seems impossible to us."

The plan, according to Postmaster Over-shiner, would admit of wonderful ramifications and improvements.

**Might Weigh Fowls**

For instance, poultry dealers along the route might have their fowls all ready to be weighed and then consigned to the market. And a housekeeper who felt that her grocer wasn't using all the weight of his influence in sending her vegetables and butter, might ask the assistance of the kindly and humanized driver of the parcel post wagon and his humanized scales.

"It is a great plan," stated Over-shiner, "but since the Santa Ana office officials and employees have always tried to be absolutely human and personal in all their dealings with the public, we consider that the order is one which we obeyed before it was even framed. And our attitude in the future will always be based on the same principle of courtesy which we have tried to observe in the past."

## 103,000 BOOKS CIRCULATED BY S. A. LIBRARY

(Continued from Page Nine)

|                   |         |        |

| History .....     | 7,468   | 6,581  |
| Total.....        | 103,000 | 87,468 |

The circulation for the adult department of the library the past year was 77,881, an increase of 12,742, and that of the children's department 25,119, an increase of 2,790.

The average daily circulation was 348 and the average monthly circulation 8583.

**March Holds Record**

March was a month to which people's minds fondly turned to books. At least, March was the heaviest reading month of the entire year, with June a close second. In March, 10,024 books were given out over the library counter, in June 9803. August and September were slow reading months, August showing 6582 and September 6645.

Among other interesting statistics shown in Miss McFadden's report are:

Number of new books bought in past year, 1659, of which 525 were fiction.

Total volumes in library, 22,321, of which 5057 are reference books, 12,157 general literature, 4027 fiction and 1080 juvenile fiction. Gifts in books totaled 40.

The library subscribes to 109 periodicals, and 15 are donated.

Close connection is maintained by the library with the clubs and schools of the city. Books issued to teachers on special cards number 571.

The annual report of the secretary of the board, Mrs. Tedford, shows total receipts for the year to have been \$19,500.26. The main items of expenditure are: Building improvements, \$1,383.74; salaries, \$5,186.85; books, \$2,488.85; furniture and fixtures, \$854.27; binding, \$547.22.

## WIFE ALSO TO SEEK BALM FOR ARREST?

(Continued from Page Nine)

missed in the justice court, Los Angeles, July 16, and Mrs. Reid was scheduled to appear in Justice Cassidy's court there this morning. She is said to have declared that she would file such a suit if the case against her were dismissed today.

The Reids were charged with entering the residence of Barker at 1140 East Sixtieth street, Los Angeles, on June 19, 1921, with intent to commit burglary.

Reid yesterday instituted suit against Barker for \$30,500 damages because of his arrest on the burglary charge. In his complaint Reid alleges that Barker maliciously filed the suit because Mrs. Reid had scorned Barker's attentions, asserting that the fidelity of Mrs. Reid aroused the jealousy of Barker.

Reid alleges that as the result of Barker's felony suit against him he was taken from bed at his Piacencia home at 2 o'clock on the morning of June 20, and locked up in the Los Angeles county jail.

He declared that he was treated like a common criminal, being forced to submit to "muggings," "quizzing" and to having his finger prints taken.

He asks \$20,000 damages for the humiliation, mental anguish, impaired health and damage to his reputation; \$10,000 for exemplary damages and \$500 for attorney costs in securing his freedom.

## OLD FIRE ALARM BELL AGAIN MOVED

(Continued from Page Nine)

Ana won it every year but one. The race would be for 150 yards and the team of six that could cover that distance and connect up 150 feet of fire hose in the best time would take off the money.

**Sprinters Win**

"One year we went up to Redlands and made the best time, but lost because we didn't connect our hose properly. The next year Redlands came here with all the fast runners they could find, whether they were in the fire department or not, and so we turned around and imported a few outsiders ourselves, including Tom Morris, a champion sprinter, "Gavvy" Cravath and Ike Fields and needless to say, we won and broke all previous time records."

The city next purchased a regular fire wagon which was pulled by speedy horses. The last two horses of the department were called "Dick" and "Dan" and they served with the French army during the World War.

The auto trucks bought for the fire department several years ago made the local fire house as modern and up-to-date as any in the country. Two additional trucks are expected to arrive here this month.

**SHE SAW "TOPICS"**

Mary had a little laugh Which sounded like a giggle; It followed her most everywhere And kept her all a-wiggle.

—Rutgers Nielson.

Some men try to convince you that they are good by telling you how bad they used to be.

## REPORT OF AN EXTRA BONUS DISCREDITED

NEW YORK, July 22.—When directors of Studebaker corporation meet July 30, only the usual quarterly dividend of \$1.75 a share will be declared on the common stock, according to a director here. There have been rumors of the possible disbursement of something extra, either in cash or stock, to common shareholders.

Following the directors' meeting, a week from Saturday, the income account for six months ended June 30, probably will be issued. It will show net profits of more than \$7,000,000 after all charges and federal taxes.

**A TRIUMPH OF TRUTH**

A merchant had advertised for a boy. Late in the afternoon a red-headed, freckle-faced, blue-eyed, honest looking boy applied for the job.

"Do you like to work?" asked the merchant.

"No, sir," replied the boy.

"Then you can have the job," replied the merchant. "You are the first boy who's been here today who didn't lie about it and say yes."

—Cincinnati Enquirer.

## TEAM OWNERS DENY BASEBALL SLUMP ON

NEW YORK, July 22.—Baseball owners deny the national pastime is in a slump. Attendance at the Polo grounds, however, which is a fairly good pulse for the other yards around the two circuits, has fallen off noticeably in the last six weeks.

New York owners hasten to claim the figures for this season compare favorably with the record marks of 1920, but this is due in part to the great outpouring of the fans during the early months.

Pittsburgh and the Boston Braves are escaping the slumps because of the great showing of both clubs.

Owners of the St. Louis and Chicago clubs report normal attendance, it being said that the Cubs are paying dividends for the first time in several years.

## RIDLEY WHIPS EDWARDS VANCOUVER, B. C., July 22.—Bud Ridley, featherweight champion of the Pacific coast, was too much here last night for Danny Edwards, the Oakland (Cal.) colored boy. Ridley carried every round of the ten-round engagement.

CHICAGO, July 22.—Hugh C. Wallace, returning from France where he relinquished his post as United States Ambassador to Myron T. Herrick of Cleveland, arrived here en route to his home in Tacoma, Wash. "Mr. Herrick should make a great and popular ambassador," he declared.

## FRESNO BOOSTERS AID MADERA BOND ISSUE

FRESNO, July 22.—Carrying a message of co-operation and good will to Madera, the neighboring county, in the \$28,000,000 irrigation district bond election which comes to vote Tuesday, a caravan of Fresno boosters, led by a brass band and jazz orchestra, made a pilgrimage to Madera and Chowchilla.

The Fresno delegation comprised representatives of clubs and civic organizations. Mass meetings were held at both Madera and Chowchilla and speakers included Wylie M. Giffen, W. A. Sutherland, Senator M. B. Harris, M. G. Gallaher, William Glass and Sam G. Moreland.

A woman has applied to a sheriff in England for a position as official hangman.

## Pulls His Indians Back To Leadership In American League

TRIS SPEAKER,

Manager of the Cleveland Indians, who yesterday led his team to victory over the New York Yankees and by doing so climbing back into first place. The Yanks dislodged the Indians from the lead in Wednesday's game. In yesterday's fracas Speaker got three hits out of five times up, one of them a double.

## CLEVELAND BACK IN LEAGUE LEADERSHIP

CLEVELAND, O., July 22.—Cleveland went back into first place yesterday when it defeated New York 17 to 8. The champions hammered Mays from the box in the third when they scored seven runs and also fattened their batting averages off of Quinn, Ferguson and Collins, who succeeded Mays. The Indians made twenty-two hits, nine of which were doubles. The Yankees made sixteen hits, seven of which were doubles.

NEW YORK ..... 8 16 3  
Cleveland ..... 17 22 4

NEW YORK, Mays, Quinn, Ferguson, Collins and Schang, De Vore, Cleveland, Caldwell, Uhle and O'Neill, Shinnault.

## WHITE SOX WIN AGAIN

CHICAGO, July 22.—Bob Falk, the Texas collegian, drove the ball into the right field bleachers, and gave Faber his twentieth victory of the season, when Chicago won from Philadelphia, 2 to 1, in fourteen innings.

Philadelphia ..... 1 16 1  
Chicago ..... 2 9 1

Philadelphia, Naylor and Perkins; Chicago, Faber and Schalk.

## SENATORS LOSE AGAIN

DETROIT, July 22.—Oldham held Washington to four hits and Detroit won, 7 to 2. Zachary was served for 12 hits in less than 6 innings.

Washington ..... 2 4 1  
Detroit ..... 7 16 0

Washington, Zachary, Acosta and Peinich; Detroit, Oldham and Bassler.

## BROWNS TRIM BOSTON

ST. LOUIS, July 22.—St. Louis won its seventh successive victory by defeating Boston 8 to 1. The Browns hit Myers and Thormahlen hard.

Boston ..... 1 8 2  
St. Louis ..... 8 15 1

Boston — Myers, Thormahlen and Ruel; St. Louis, Shocker and Seveleid.

## ANGELS TAKE CLOSE GAME FROM SEATTLE

LOS ANGELES, July 22.—A wild heave by Stump in the first inning gave Los Angeles one run, just enough to win yesterday's clash with Seattle. Ote Crandall did the dealing for the Angels and held the visitors to four hits. Francis was nipped for nine blows, but fast fielding by his teammates, who made four double plays, kept the Angels from scoring after the battle.

Seattle ..... 0 4 1  
Los Angeles ..... 1 9 0

Seattle — Francis and Adams; Los Angeles, Crandall and Baldwin.

## SOLONS TAME TIGERS

SACRAMENTO, July 22.—Sacramento won a free-hitting contest from Vernon here yesterday by a score of 7 to 5. Smith and Ryan hit home runs. The pitching of Cross, recruit, who relieved Dell, was the feature of the contest.

Vernon ..... 5 12 1  
Sacramento ..... 7 10 1

Vernon — Dell, Cross and Murphy; Sacramento, Shea and Cook.

## BEEBS WIN A GAME

SALT LAKE CITY, Utah, July 22.—Battling rallies by the Salt Lake club in the eighth and ninth innings gave the locals their first victory of the series, 10 to 9. Levenez was wild and the Oaks' talies were largely due to his lack of control, he allowing only six hits.

Salt Lake ..... 9 6 0  
Oakland ..... 10 14 3

Salt Lake — Kremer, Arlett and Mitze; Oakland, Levenez, Gould and Jenkins.

## SEALS TRIM PORTLAND

OAKLAND, Cal., July 22.—San Francisco took advantage of the wildness of Ruben Ellison, new Portland pitcher, and walked away with yesterday's game, 11 to 7.

Portland ..... 7 11 0  
San Francisco ..... 11 14 0

Portland — Ellison, Coleman and Fisher; San Francisco, O'Doul and Yelle.

## DODGERS DOWN CARDS IN 11 FRAME CLASH

BROOKLYN, July 22.—Grimes, Brooklyn's premier pitcher, who was knocked out of the box in two innings Wednesday, came back yesterday and defeated St. Louis, 2 to 1, in eleven innings.

St. Louis ..... 1 9 2  
Brooklyn ..... 2 9 1

St. Louis — Doak and Clemens; Brooklyn, Grimes and Miller, Krueger.

## PHILLIES DOWN CUBS

PHILADELPHIA, July 22.—Philadelphia took the second straight game from Chicago, 8 to 1. Ring pitched effectively.

Chicago ..... 1 6 1  
Philadelphia ..... 8 14 1

Chicago — Freeman, Jones and Daly, Wirtz; Philadelphia, Ring and Peters.

The latest English society woman to act for the films is the Hon. Eleanor Smith, a daughter of Viscount Birkenhead, the Lord Chancellor.

Washington at Detroit.

National League  
St. Louis at Philadelphia.  
Chicago at Cincinnati.  
Pittsburgh at New York.

## URGES CAMPAIGN FOR VETERANS' FRIENDS

WASHINGTON, July 22.—A nationwide campaign to enlist "first friends" for every disabled veteran returned to civil life by the vocational training service was advocated by Myron Adams of Chicago, before the senate committee investigating the neglect of ex-service men.

Adams would appeal to the patriotic sensibilities of influential citizens particularly employers, throughout the country to help the government in getting results from vocational training. Many a disabled veteran, rehabilitated by the government, will fall by the wayside in the race for a livelihood unless some persons of influence and means becomes his "first friend," and sees to it that he gets a fair fighting chance, according to Adams. The first friend's aid must not be charitable or patronizing he said. It must consist chiefly of "manly helpfulness."

One of the most successful of the London periodicals has as its editor and publisher a woman who began her career as a mill girl in Lancashire.

# Good Things to Eat

Nowhere else in Orange county can you find a more varied and complete assortment of high quality groceries and delicatessen.

WE ARE SOLE COUNTY AGENTS FOR

Milwaukee Summer Sausages, Imported Salamies, Eastern and Frisco fresh-boiled and smoked meat and many other kinds of meat that keep indefinitely without ice. We also are sole agents for an immense line of IMPORTED AND DOMESTIC CHEESE.

ORANGE COUNTY HEADQUARTERS FOR

# LATEST FROM OIL FIELDS

HUNTINGTON BEACH—PLACENTIA—RICHFIELD—BREA—YORBA LINDA—NEWPORT

## NEW WELLS ARE BROUGHT IN AT BEACH

The Amalgamated Oil company has added another well to its producing string today. Huntington No. 3, completed at 2745 feet, came in a 200-barrel well. Fowler No. 1, the 600-barrel well of ten days ago, has settled to 350 barrels and is producing 27 gravity product. Huntington 1-A is producing by heads and is not making more than a few hundred barrels. Pearce No. 1 set 8-inch at 3503, where a good showing was noted.

At 2303 feet the Bolsa Chica Oil company's Augur No. 1 struck what is believed to be a highly productive oil sand. A string of 8-inch was set and the Bolsa Chica people are making time to the date when the cement may be drilled out and a nice well brought in.

Success has crowned the efforts of the Argonaut Oil company at Turley No. 1. The water has been shut off and the new well went on the pump at 290 barrels.

Gypsy Syndicate Is Wet.  
The Gypsy Syndicate failed to get a shut-off on the water at 2199 and the well is being recomenced. Drilling on No. 2 is now at 2090 and No. 3 is building rig.

At 2285 feet the Huntington owners were successful in shutting off water at well No. 2. Drilling ahead and washing every five feet of hole is now being done.

For the first time in a good many months the Hurst Oil company's No. 1 is standing idle. A fishing job and a desire to await further developments in the field are given as the cause of shutting the well down.

Miley-Kock No. 2 is one of the Huntington Beach producers. Completed at 2925 feet, this new well went on production, making 100 barrels. Nos. 3 and 4 are rigs. No. 6 is building rig and offsets the Republic Petroleum big producer. No. 5 is rigging up for the rotary.

Gets Showing, Sets.  
At 2373 the Motor Oil and Refining company got a showing of oil. The state's request was complied with an 8th 10-inch was set.

Cleaning and washing out of Pantagones-Huntington No. 1 resulted in almost doubling the production. The well is doing close to 400 barrels. Formerly the production ranged around 250 barrels.

The Petroleum's Midway's first producer in the field, Columbia 3-1, has doubled its production, drilled to 3007 feet, the well came in at about thirty barrels. The production has increased to sixty-five barrels. Columbia 1-1 was recomenced at 3226. Columbia 2-1 is drilling at 3100 in sandy shale. Towers No. 1 shows 3100 feet and fishing. Smythe No. 1 is drilling at 2300 in shale. Vollmer-Meyer No. 1 is drilling at 3100 feet, and No. 2 Vollmer-Meyer No. 4 is drilling at 3000 feet in hard sand. High School No. 1 is rigging up for the drill.

Flowing by Heads.  
The State Consolidated's No. 1, completed at 330 feet, went on production yesterday and started off flowing by heads about 100 barrels. Sun No. 1 is standing recomenced at 2437. No. 2 is a rig and No. 4 drilled on the cement at 2135 and was dry. Preparations are now being made to run in screen 8-inch and put the well on production.

At 2535 feet the Standard Oil company is bailing with the intention of bringing the new well in. Bolsa No. 2 is also being bailed down and will be on production soon. Jones Community No. 1 is holding its initial production of 300 barrels nicely and is making 25 gravity oil. On the Huntington A property the Standard has two wells standing cemented, six wells drilling, and two new rigs up. Huntington B-2, 3 and 4 are drilling. Huntington D-1 is standing cemented at 2665. D-2 is a location. E-1 is rigging up. Bolsa No. 4 has been located. Jones Community No. 2 is building rig. Thompson No. 1 shows 2550 feet and Torrance No. 1 is washing out at 4104.

Additional Field Information.

Huntington Mutual No. 1—Rig, waiting on developments.

Huntington National No. 1—2261, standing cemented.  
Huntington Pacific Oil Co. No. 1—Rig.

## PRODUCTION TEST TO BE MADE THIS WEEK; STANDARD TO DRILL

Encouraged by the fact that they were the first ones to make a successful shut off of water in the Newport field, Long Beach Consolidated officials are anxious to make a production test. The well has been cleaned out to 2818 and will be tested out this week.

The Engineers Oil company is a new concern to the Newport district. The Engineers Oil company is not a new concern to the northern field where it has a number of producing wells. The new operators at Newport have acquired three very promising properties and it is the intention to drill on one of these properties at once.

Standard Will Drill  
The Standard Oil company acquired quite an extensive acreage at Newport some little time ago and it is now understood that actual development work on some of these properties is scheduled to begin soon.

Little change took place on the Interstate's holdings at Newport during the past week. It is the intention to drill out the cement at Norris No. 1 before the end of the week. A successful shut off on the water here means an early producer for the Interstate Oil Co.

## BIXBY SYNDICATE DOWN 4200 FEET

OLIVE, July 22.—Drilling on the Bixby Ranch Syndicate well is now close to 4200 feet where the formation consists mainly of blue shale. The drilling is going very good. It is the intention now to go deep and make a satisfactory test well.

The National Security Oil company near the county park, drilled out the cement at 2135, set a shut off on the water and is now going ahead at 2175.

The New York-California Oil company's No. 1 is standing idle. It is understood that the company is awaiting advice from New York. There is no intention to abandon the property and quit the field.

The Olive Petroleum company is drilling at 3425 and not making the progress expected. Some hard digging and close watch of the formation being the accounting factors.

The Orange County Petroleum company, on the road to the county park, is drilling at about 1650. The formation is hard sand and requires considerable reaming to carry the pipe.

## COUNTY WILDCATS

The Petroleum Midway's success at Bunker Park continues. At 2450 the formation is a hard sand, but the drilling is going nicely.

The Standard Oil company is close to 2500 feet at Garden Grove. About 100 feet of hole a week is being made. Close watch is being kept on the formation changes.

The Westminster Oil company is making splendid progress, in spite of the exceptionally hard formation struck after drilling out the cement at 3000 feet. At 3300, the present depth of the hole, the formation shows hard shell and shale. The formation seems to be rather broken up and makes the logging a little difficult. It appears now that the Westminster well may have to go to 3500 or deeper before getting the oil sand.

Copeland No. 2—Rig standing.

Copeland No. 3—2745, shale and shell, drilling.

Copeland No. 4—1800, shale and shell, drilling.

Newland No. 2—Setting boilers and rigging up.

## GREAT ACTIVITY NEW FIELD HAS IN RICHFIELD OIL CENTER APPEARANCE OF BIG THING

The Amalgamated Oil company at Richfield has completed its Potter No. 2 at 3508 and put the well on a pumping test. Judging from the long run of rich oil sand the well showed it should make a nice producer. Breen 2 and Page No. 1 are held up with fishing jobs at 1270 and 2500, respectively.

The redrilling of the Clark Oil company's Wetzel No. 1 is at 4000 feet, just 100 feet off bottom. The formation is still in a sandy shale and is showing some oil.

The Fullerton Oil company's Anaheim Union No. 1 is now drilling at 4665 and is still in brown sandy shale. The appearance of the oil sand has been expected from 4200 feet on, and the failure to find it at 400 and 500 feet deeper is something of a disappointment.

Comes in Water Well

Drilled to 3427 feet in territory that looked good for oil, the General Petroleum's Yorba No. 1 came in a water well. Efforts will be made to shut the well off and probably the well will be deepened.

The G. P.'s big producer continues to be Hugo No. 1. This well is doing 450 barrels.

The Merchants' Oil company is setting boilers and rigging up on No. 2. No. 1 is still a consistent producer at 300 barrels.

The Placentia-Pacific expects to drill out the cement this week and make a bottom water test at 3865. The first cementing failed to get all the bottom water. Conditions have been very favorable for a good well.

The Placentia Oil company will be making new hole and drilling ahead before the end of the week. The cement has been drilled out at 2875 and a water test will be made. The management does not anticipate any difficulty with the water.

Has 200-Barrel Well

On the Bradford property the Petroleum Development company has completed No. 5 at 4395 and put the new well on production. It will probably settle down to about 200 barrels. No. 1 continues to increase its output a few barrels each day and is now making 250. Bradford No. 3 is drilling in gray sand at 4375 and shows little indication of oil.

On the Krug property at Richfield the Petroleum Midway is bringing in its second well, Krug No. 3. At 2335 the tubing was installed and the new well looks good for 400 barrels. Isaacs No. 2 has resumed drilling and shows 1200 feet of hole. Yarnell No. 3, the last of the Yarnell brothers, is on the water at 3000 and is drilling ahead at 3200, hard sand. The Richfield-Yorba No. 2 is now the Petroleum Midway's deep well. It is now drilling at 4465 and is in brown shale. As yet it has not shown any very strong indications.

Unless the unforeseen happens the Richfield-Giant will be producing before the end of the week. The 6-inch is being pulled, will be run back in carrying a packer that will shut off the little water that has been coming through the 8-inch. The tubing will be installed and swabbing of the well started about Thursday.

Tests Water

The Richfield Union Petroleum company has drilled the cement plug, set at 3200, and is making a water test. The bailing thus far leads the management to believe that a successful water shutoff has been made.

The Richfield-Yorba Oil company is now putting in 4 1/2 perforated and getting ready to put its new 500-barrel well on production. Sand heaving has hindered the work the past week somewhat. A well is in sight and the trouble of putting it on production is of no consequence.

The Standard Oil company is doing the deep drilling at Richfield. Loftus-O'Bryan No. 1 is standing cemented at 5097 and is about ready to drill out. Vejar No. 1 is drilling at 5095 and will be one of the test wells of the field. On the Kraemer No. 2 property No. 13 is nearing the production at 4300. Kraemer 14 is at 4350 and looking good. No. 15 shows 3600 feet and No. 16 is drilling at 1775. No. 17 is a new well, building rig.

The Wonder company Ltd. is building a rig for its third well. No. 2 stands cemented at 3197. No. 1 is standing up handsomely on production. It has been flowing now for four months and is doing considerably better than 1200.

Union Oil Company Activity

The Union Oil company of California still holds first place in the heavy development of the Richfield district. The Union's big producer Chapman No. 6 continues to flow 2400 barrels daily. No. 1, the discovery well of the field, is still good for more than 500 a day. On the Morse property No. 2 continues to be the big well, it is doing 525 daily.

Dr. Magill, Osteopathy. Phone 956W

New York Toddler, Harding Gilde taught by the originator, Mabel Rockwell, Armory Hall every Friday evening at 8 o'clock.

The H. T. & K. syndicate on the San Joaquin hills is now drilling in the oil sand at 2700 feet and the well is looking the best it has ever looked.

The Laguna Oil association continues to make excellent progress. Early in the week reports gave the depth at 2400 and digging in shale.

The Wirscher and Gray Oil company resumed work with cable tools at 1805. It is understood that no trouble arose in shutting off water. Wirscher & Gray No. 2 has been located, and work is scheduled to commence at an early date.

## KIWANIS ARE ORGANIZING NEW CLUB

FULLERTON, July 22.—The Fullerton Kiwanis club is the newest and latest organization to make its bow in this community.

Albert Launer is temporary president and Waldo R. McWilliams is temporary secretary-treasurer, the other directors being Frank P. Taggart, Albert H. Stitt, Ralph P. Brown, Harry G. Maxwell, Dr. J. H. Lang, Waldo O'Kelly and Harry Lee Wilber.

These nine men will serve as temporary organization until the club comes into full existence with a minimum of fifty members. One of the field secretaries of Kiwanis, Mr. Westcott, is in Fullerton and will remain until the new organization is completed and on its feet.

The first Kiwanis club was organized in the city of Detroit, Michigan, in January, 1915, and it is said it has never lost a member except by death and removal from the city since organization.

From Detroit, the movement has spread from coast to coast to more than 500 cities, and now has a combined membership of 50,000 and is growing now at the rate of twenty-five cities each month, and is adding to the membership at the rate of fully 20,000 each year.

Kiwanis is absolutely non-sectarian and non-political. It stands for 100 per cent America and 100 per cent American. While not a church organization, it puts the golden rule in business and professional life.

There are twelve Kiwanis clubs in California, organized in the following order: Los Angeles, Long Beach, Oakland, San Francisco, Pasadena, San Diego, Santa Ana, Riverside, Anaheim, Fresno, Hanford and Fullerton. It is expected there will be fully 30 cities organized by the end of next year.

Two members are admitted from each business and profession in each club, but by invitation only. A luncheon is held each week with a different chairman and a planned program is confined strictly to one hour.

## WESTMINSTER

WESTMINSTER, July 22.—Mr. and Mrs. Wallace Dickey and son and Mrs. Dickey's mother, Mrs. Baker, came down from Van Nuys Sunday evening, bringing with them Mr. and Mrs. Eben Dickey, of Woodland, who have been visiting in the east, and Miss Bertha Dickey, who has been visiting friends in Lindsay. Monday being Eben Dickey's birthday, a family reunion was held at the home of his mother, Mrs. S. Dickey, in honor of the occasion and a sumptuous dinner enjoyed in the evening.

In addition to the guests coming from Van Nuys there were present the families of Mr. and Mrs. Charles Hunt of Anaheim, Mr. and Mrs. Perle Gust of Corona, and Mr. and Mrs. W. B. McCoy, of this place.

A card received by Miss Leora Blakey from the J. J. Stoves family stated they were having a fine trip. The card was written from Palo Alto, where they arrived three days after leaving home, having covered a distance of 483 miles or about one-third of the distance to Kelso, Washington, where they will visit Mr. Stoves' parents, who spent the winter here.

Mr. and Mrs. J. J. McCoy, of Beaumont, attended the Presbyterian church Sunday and were guests of his brother, W. B. McCoy and family. They came up from Long Beach having the day before attended a picnic of the McCoy relatives at that place. They returned to Beaumont Monday afternoon and were accompanied by Mr. McCoy's sister, Mrs. John Cook, and two sons, Keith and Jack.

Mr. and Mrs. J. P. Weinschenck and daughter, Miss Fay Weinschenck, passed through here Monday afternoon on a camping trip. They have been spending some time at Huntington Beach.

Mr. and Mrs. D. M. Thorne, daughter, Miss Mary Thorne, and little granddaughter, Nancy Jean, who are spending a vacation at Long Beach, visited Mr. and Mrs. F. J. Grandy Sunday afternoon. Tuesday evening Mrs. Grandy and son, Douglas, went to Long Beach and found Mrs. Thorne indisposed but not seriously ill.

Mrs. M. G. Waters, who has been with her son, Charles Waters and family at Santa Paula, visited friends here Saturday. She is visiting her daughter, Mrs. J. D. Wilson, and was brought over by a granddaughter, Mrs. Marguerite Martin, who lives at Orange and who visited friends in the Wintersburg section.

Mrs. Frank Watson, of Los Angeles, a former resident, attended a meeting of the Fraternal Brotherhood at R. F. Hazard's home Monday evening, and was a guest of Mrs. W. G. Allford, of Smeatzer.

F. J. Grandy lost a three weeks old calf the past week. Death was thought to be the result of the hot weather.

Mrs. George Abbott and daughter, Mrs. Georgia Holmes, spent a few days in Huntington Park this week. George Stanley, of Huntington Park, came down Monday for his daughter, Mrs. Roy Byram and baby, who will spend the week with her parents. Her husband, Dr. Roy Byram, and brother, Wilbur Byram, left Wednesday for a few days' camping trip to Idylwild and vicinity.

W. J. Edwards and son, Rufus, returned Tuesday from a few days' camp at Laguna Beach.

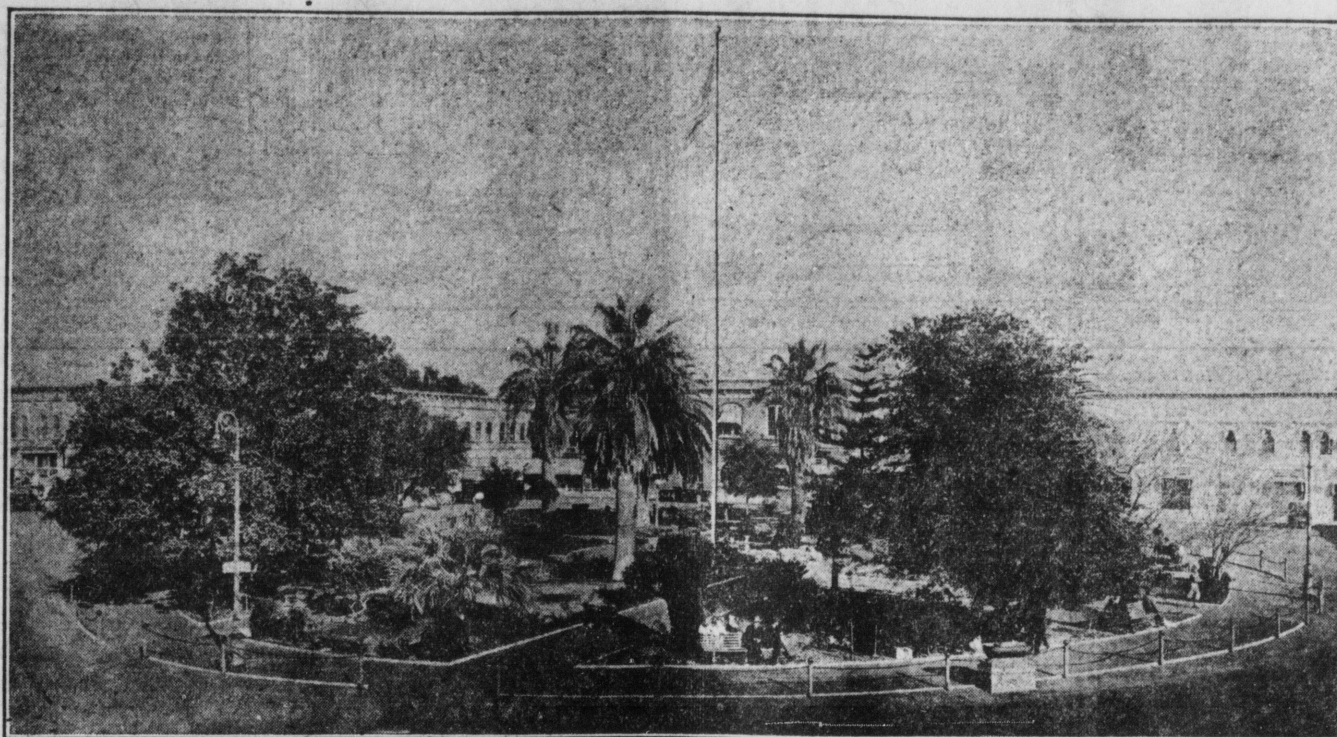

Earl Walton arrived from Holland Island Tuesday and spent the night with his cousin, Mr. and Mrs. Charles Walton.

Mr. and Mrs. Arthur Hughes, of Los Angeles, visited Mr. and Mrs.

# ORANGE COUNTY NEWS

"THE BIGGEST LITTLE COUNTY ON EARTH"

THIS CHARMING PLAZA IS THE PIVOTAL POINT OF THE BEAUTIFUL CITY OF ORANGE IN THE HEART OF ORANGE COUNTY'S ORCHARDS

## BOY BREAKS ARM CRANKING MOTOR

WINTERSBURG AND SMELTZER, July 22.—Roy Gano suffered a broken right arm Tuesday when the automobile he was attempting to crank back fired. The accident happened at the garage and the machine belonged to his uncle, Reuben Clemens, for whom he is working during vacation. Gano is a Fullerton youth and is staying at the home of his grandmother, Mrs. Mary E. Clemens.

Sim Teneick, who underwent a recent operation for appendicitis, is recovering rapidly and is expected to be able to return home from the hospital within a few days.

Mrs. Otis Taylor was pleasantly surprised Sunday afternoon by a visit from cousins, Miss Bessie McIntosh, Harold and Earl McIntosh, and Mrs. Nellie McIntosh, who motored down from Glendale. Mrs. Taylor accompanied them on to Huntington Beach, where they enjoyed lunch, then drove into Santa Ana, where they visited at the home of their uncle, Bert Campbell.

Mrs. Taylor's mother and sister, Mrs. and Miss Foote, and with Mr. and Mrs. Frank Bemis and Mrs. Sherwood and Miss Edna Sherwood who were at the Bemis home. The Glendale party motored on home, after bringing Mrs. Taylor home.

Mrs. B. A. Farrar motored to Huntington Beach Saturday evening to meet her cousins, Mrs. Bertha Stone and Miss Brookbanks, who came by car from Los Angeles to remain over Sunday. Another party who spent Sunday at the Farrar home and were surprise guests were:

Mr. and Mrs. J. L. Farrar and little granddaughter, Elizabeth Farrar, the latter of Perris, and Mr. and Mrs. Harry Bell and baby daughter, Marilyn, also of Los Angeles.

Mrs. Farrar's cousins, of Kansas City, who are in California for a year, returned to Los Angeles Sunday evening.

A picnic party of local people left here at an early hour Wednesday morning and drove over to Anaheim landing, where they had a pleasant day's outing, remaining until a late hour. Long hours of swimming in the bay employed most of the time, both morning and afternoon, and a hearty and abundant chicken dinner with sandwiches, cake, fruit and other good things that go to make an appetizing lunch was done full justice at the noon hour.

The personnel included: Mr. and Mrs. E. Ray Moore and family, the Rev. and Mrs. J. Scott Willmorth and family and Mr. and Mrs. Otis Taylor.

Mr. and Mrs. George B. Crane, daughters, Mary and Floete, and son, S. J. Crane, Mrs. Crane's sister, Mrs. Grant and son, and Mr. and Mrs. Charles Graham and son, Alvin, went camping Thursday morning to the Forest of Arden on a five days' outing.

Mr. and Mrs. Clinton Brush visited Sunday at Huntington Beach with Mr. and Mrs. Leon Moore. Mr. and Mrs. James Robertson and son, Richard, formerly of this place and now of Laguna, were dinner guests Wednesday evening at the Clinton Brush home.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

J. H. Walton Tuesday. Mr. Beck, of Long Beach, is doing some carpenter work at the home of his brother-in-law, Mr. Gratas, who has been in poor health the past few weeks.

The little daughter of Dr. and Mrs. Roy Byram, Mertis Estelle, was baptized Sunday morning at the Presbyterian church.

Mr. and Mrs. Frances Penhall spent Sunday in Los Angeles with Mr. and Mrs. Frank Winton.

Mr. and Mrs. Charles Parr and children spent Monday at Anaheim Landing in company with Mr. and Mrs. Albert Haas, of Riverside, who have been staying at Long Beach.

Mr. and Mrs. Haas spent Monday night with the Parrs.

The Rev. W. T. Wardle spent Tuesday and Wednesday in Los Angeles.

Mrs. Florence Knoll Smith, of Hawaii, who is visiting relatives in Los Angeles, spent Wednesday with Dr. D. Campbell. Mrs. Smith and her sister, Miss Pansy Knoll, both of whom taught in the grammar school here, are employed as teachers in Hawaii. The former will return the first part of August. Her sister remained at the island.

## Things Worth Knowing About Orange County

Where there are orchards in Orange county there are also beautiful homes, and verily Orange is a garden spot.

Stability and beauty reign jointly in this section, located on the San Diego-Los Angeles line of the Santa Fe, thirty-three miles from Los Angeles, three miles northeast of Santa Ana.

From the circle of the foothills to the east, northeast and north to beyond the Santa Ana river on the west and beyond the Santiago creek on the south is an area devoted almost entirely to oranges, lemons and walnuts in which no less than 10,000 people are living. Of this area Orange is the community center.

In environment and beauty of setting, in the excellence of its schools and the intelligence of its citizenry, in the substantial industries that are its characteristics, Orange is looked upon as ideal, and easily and justly Orange may claim high position among the municipalities and communities of the county.

Orange is the trading point for smaller communities, El Modena and McPherson, lying between Orange and the foothills three miles to the east, Villa Park, three miles to the northeast and Olive three and a half miles to the north. Many of the residents of these communities attend churches at Orange, and all of these communities are a part of the Orange union high school district, which has an exceptionally fine group of high school buildings and an exceptionally well conducted high school located three blocks from the center of Orange.

It is known everywhere in California that where there are productive orchards there are beautiful homes. Orange proves the rule. Not only are there many beautiful homes, but the residences on the streets of Orange but they are found mid the groves throughout this attractive section.

One may drive for miles around Orange along grove-lined paved highways and good dirt roads, and the changing scenery will bring delight. It is but a few minutes' ride into the foothills. The Santiago canyon, with the County Park and Modjeska's old home as most popular attractions, and the Santa Ana canyon, with old well derricks risen like a forest, with a wonderful winding road, are numbered among near-by destinations in frequent afternoon drives from Orange.

Viewing the substantial nature of Orange and its back-country, one is convinced that Orange's position in the southland can never be varied excepting in the upward scale. Its soil is of the "hone better" class, and with its area well irrigated with gravity and pumping plant water its production in fruits and walnuts is certain to increase as the years go by, as it has increased for years past.

## FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How To Remove Easily. Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any drugist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the drugist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

## BEAUTIFUL HOME WEDDING AT GROVE

GARDEN GROVE, July 22.—A beautiful home wedding was solemnized on Wednesday evening when Miss Frances Hughes Waltz became the bride of Lynn Root Pollins at the home of the bride's parents on Cypress avenue. The Rev. Mr. Harkness officiated, using the ring service.

Promptly at 8 o'clock, Mrs. Irvine German sang "Oh Promise Me," accompanied by Mr. German on the violin, immediately after which the bridal party took their places beneath a natural bower of woodbine, to the strains of Lohengrin's "Bridal Chorus," rendered by Mr. German. The bride was beautifully gowned in silk crepe meteor, hand embroidered and headed in opalescent beads. Her veil was tastefully caught in place with orange blossoms and she carried a shower bouquet of bride's roses and maiden hair fern.

Miss Edith McConnell, in blue silk crepe, attended the bride, while Malcolm Wharton supported the groom. Miss Vivian Lutz, small niece of the bride, dressed in dainty pink organdie strewed roses in the bride's pathway.

About fifty relatives and intimate friends witnessed the ceremony, which took place on the Japanese lantern lighted lawn. Refreshments were served during the evening. Out-of-town guests included Estes Waltz and Mrs. Irene Lutz and children, of Los Angeles, brother and sister of the bride; Mrs. Lola Covington, of Pasadena, cousin of the bride; Mr. and Mrs. J. Calvyn Armstrong, brother-in-law and sister of the groom; and their small son, Trenton, of Anaheim; Mrs. G. Root and Mrs. Dora L. Smith and daughter, Betty, grandmother and aunt of the groom, respectively; Mr. and Mrs. William Rohrbacker and daughter, Doris, and Mr. and Mrs. E. L. Morrison, all of Santa Ana.

Mr. and Mrs. Pollins left mid a shower of rice and good wishes for a honeymoon at Little Bear Lake. They will be at home to their friends after August 1 at their ranch home in Garden Grove.

## TALBERT

TALBERT, July 22.—Mrs. Harry Harper delightfully entertained several ladies at a dinner party and for the day Thursday. The guests included:

Mrs. George Ross and Mrs. Cecil Mock of Santa Ana, Mrs. Cecile Combs, of Fullerton, Mrs. A. Ross and Miss Vena Ross, of Bolsa, and the hostess' mother, Mrs. Lena Patterson, of Smeatzer.

An unusually large attendance was at the Talbert church last Sunday evening. A pleasing feature of the service was special music by a quartet composed of Mr. and Mrs. Presson, Mr. Hill and Mr. Billiger, who sang beautifully, "The Church in the Wildwood."

The sermon was by the pastor, the Rev. Mr. Woodson. The Rev. Silas Hill preached Sunday morning for the Rev. Mr. Woodson at his Greenville appointment.

Mrs. Lorena Stice, of Santa Ana, visited Monday with her mother, Mrs. L. T. Wells.

Eugene Perry, who has been at the home of his mother, Mrs. L. T. Wells, while recovering from an injury, has been with his sister in Santa Ana since last Friday.

A pleasant ice cream supper, including cakes, and social time, was enjoyed by the D. C. Gilbert family and a party of friends at their home last Monday evening. The affair was quite informal and everyone enjoyed it.

Those included in the party were: Miss Frances Chandler and her guest, Miss Andrews, of Bakersfield; Mr. and Mrs. L. T. Wells and children, Lavaughn and Lewis, the Rev. and Mrs. J. J. Woodson and daughters, Mable Lee and Dorothy and Harold Melvin.

Ora Hill spent the last week end at Orange at the home of her grandmother, Mrs. Phillips.

The Rev. J. J. Woodson and daughter, Mable Lee and Dorothy, took a motor trip Monday and Mable Lee spent the day at Pomona at the Dr. T. W. Alley home while her father and sister drove on to Ontario.

There the Rev. Mr. Woodson secured an apartment and on Wednesday Mrs. Woodson, Mable Lee and Dorothy Woodson and Alpha and Dedah Gilbert, Irma Shiffer and Marie Wells, the latter two of Greenville, went to Ontario to stay through the peach season.

## ALL IS SERENE AGAIN ON TALBERT'S RIALTO

TALBERT, July 22.—Padro, a "faith healer," has wrapped the drapery of his couch about him and departed from hence.

Peace-loving inhabitants of this district, who were disturbed by the series of strange chants and strident yells that were supposed to play an important part in the alleged healing process, have resumed their customary routine and all is serene.

Padro, who is said to be a disciple of the Pentecostal "apostles" active in other parts of the county, catered to the Mexican population and set up his "shrine" in the store formerly occupied by a Japanese. His "cures" were supposed to be instantaneous and accomplished by binding parts affected with a so-called "blessed" handkerchief.

To date no miracles have been reported, it is said.

## BUENA PARK

BUENA PARK, July 22.—Mr. and Mrs. William Abplanalp and family are sojourning at Strawberry Flats, in the San Bernardino mountains this week. They are staying at the A. L. Bennett cabin.

Mrs. R. H. Meyer has been visiting with Mrs. Evan Gage, of Huntington Beach, for the past few days.

A surprise shower was given by the Ladies' Aid of the Buena Park Congregational church on Wednesday evening for Miss Margaret Martin, who is soon to be married to James Nailer.

Miss Martin has been a faithful worker in the church and has assisted at the organ as well and her friends gathered together with handsome gift towels and other beautiful presents as a reward for her faithful service.

A good program was a feature of the evening's entertainment and cake and punch were served later in the evening.

The affair was a great success from the surprise standpoint as Miss Martin and Nailer were entirely unaware that any plans were on foot.

At the Buena Park Congregational church, Sunday, July 24, the morning service will be held at 11 a. m., the subject being "The Positive Side of Religion."

The evening service will also be held in the church instead of the school hall as previously. This will be a popular summer evening service. The pastor will preach morning and evening.

Miss Knight, sister of the Rev. C. L. Knight, who in the past month has arrived from London, England, has been suffering severely with a poison which has gone through her entire system. At present it would seem like the trouble has begun to abate to a certain extent.

Mr. and Mrs. J. B. Robison have been going daily to Los Angeles, where they have been attending the trial in which their daughter, Miss Irma Robison is suing the Southern Pacific company and an oil company for \$50,000 damages, resulting from an accident in which the Southern Pacific motor on which she was riding was entirely demolished.

Miss Marjorie McComber is making two trips per week to Los Angeles, where she is taking music at the University of Southern California.

Miss Margaret Martin and James Nailer made the round trip to Strawberry Flats and return on Thursday leaving Buena Park at 3 a. m., and returning later in the evening.

Miss Mildred Johnson is preparing to make a trip to San Francisco where she will visit an aunt, remaining till school commences again in September.

A number of Buena Park ladies attended the meeting of the Daughters of Veterans at Fullerton. From there they journeyed to Long Beach where, in company with ladies from Whittier and Santa Ana, they were entertained by the Daughters of Veterans of the Emily L. Jewel Tent, No. 11, where the fourth anniversary was being celebrated.

Speedometer Repairing at Liveseys.

The young ladies will work in the fruit while Mrs. Woodson will keep house for them. The party will return home each week end.

Vance Wardlow is confined to his home with the mumps this week.

Muriel Wardlow, who suffered an attack of blood poisoning the past week as the result of a cat scratch, is now well on the road to recovery.

## EVENING SALUTATION

*Humility is eldest-born of virtue,  
And claims the birthright at the throne of heaven.*  
—Murphy.

## POPULATION AND REALTY

The population figures published in yesterday's Register, while somewhat speculative, indicate certainly that Santa Ana is growing—and growing fast. It seems certain that the city will more than double in population during the decennial period between the Federal census of 1920 and that of 1930.

Now that means something.

It means that Santa Ana has exceptional resources, attractions and advantages, both moral and material. But it also means that Santa Ana real estate, both improved and unimproved, is a mighty good investment.

It means that, despite relatively high building costs, it will pay to buy and build—that is, if the building is first-class and permanent. For the increase in land values will more than take care of any possible reduction in building costs.

Real estate agents report a decided increase within the past few weeks in the demand for houses for rent, and several cases have been reported of businesses seeking suitable store rooms that could be rented.

While it is not, perhaps, as a general rule, practicable to improve business property without securing tenants in advance, it would seem that a few standard store rooms could be built just now without any risk at all. And as for good houses—they could be rented at profitable prices as fast as they could be built.

Every foot of realty in Santa Ana is today worth double the amount it was worth ten years ago, and ten years hence it will be worth double its present value.

The war on warfare is the most popular war in the history of the world.

## GOING UPON A BUDGET

In preparing a detailed budget for the coming year, County Engineer J. L. McBride has taken a step that is bound to bring about excellent results. A carefully worked out budget in public business is necessary to proper financing.

The proposed budget for Orange county, totaling \$875,911, presents a formidable proposition. The care of the dirt roads and paved highways and the construction of new pavement and new bridges in Orange county is no small job. Only through careful planning and proper organization methods may the work be done and done well.

The making of a budget is fraught with some uncertainties always, and the making of a budget for the care of paved roads in any county of this state at this time presents a good many difficulties. The bit of pavement that is standing up well today may be subjected to unusually heavy traffic tomorrow, and it may be knocked to pieces in short order.

The destruction of a portion of one street menaces another. Heavy trucks pounded great holes in West Fifth street. When West Fifth street by the acts of the trucks themselves became unfit for travel, the trucks began using West Fourth street, and at the rate of disintegration now going on there West Fourth will soon be a match for West Fifth.

What has happened to this city street may happen to some of the county roads. County officials unfortunately are not gifted with prophetic powers. In making up a budget, therefore, they lay their plans according to their best judgment.

Once the task is outlined and through the fixing of tax rates money is made available for the work, the engineering force may tackle its job with a great deal more forcefulness than is possible when it hardly knows from month to month what is ahead of it.

The estimated expenditures reach a huge total—\$875,911. Why? The question has been answered too often to need an answer. Everyone knows that unlooked-for development of heavy trucking furnished the reason for the going to pieces of our paved highways. Repair work alone will mount high. All new roads are being built stronger than was thought necessary ten years ago.

Our board of supervisors is to hold a conference at Riverside next Monday with supervisors from San Bernardino and Riverside counties. At that conference the question of adopting a uniform load limit for trucking in the three counties is to be discussed, and probably some limit will be settled upon.

Since the state legislature failed to pass a measure reducing the load limits for trucking, the counties ought to waste no time in passing ordinances to protect their highways. Orange county already has a load limit of 23,500 pounds. Nearly everyone who has studied the matter declares that the limit here should be cut materially. The reduction of 2,000 or 3,000 pounds will do little or no good. Drastic action is necessary. That the supervisors of the three counties could meet and not take some drastic action seems unbelievable. Things cannot go on as they are, for the roads are going to pieces faster than they can be repaired.

A budget is an important step in the right direction. A bludgeon for illegitimate trucking and for all kinds of trucking that breaks up our roads is equally important.

Seashore or mountains? That question is up for debate in many a home.

## RELATIVITY FALLS DOWN

Prof. Albert Einstein has stirred up a storm in this country by his criticism of Americans in a Berlin interview. His chief impressions of American life seem to be these:

Our people are dreadfully bored, and their apparent interest in the relativity theory was to him merely proof of their boredom.

America is a country wholly dominated by women, and the women are mainly concerned with spending the men's money.

American scientific attainments don't amount to anything, and Americans are hopelessly superficial in their attitude toward scientific matters.

There is no need of answering these charges in detail. There is some ground for each of them, but as generalizations they are plainly absurd. Relativity has fallen down.

Prof. Einstein's remarks may be taken for what they are worth, and no more. Some indignant Americans question the learned professor's qualifications for

judging America. He is a big man, but he is admittedly a theorist, not a practical scientist, and therefore not trained to careful observation. That may account partly for his views. A novelist or dramatist, accustomed to judging life and seeing through people, would have done better—H. G. Wells, for example.

Even a theorist, however, of Prof. Einstein's ability, would be expected to realize the absurdity of trying to size up America so absolutely from what little he saw of it. He came in the interest of the Zionist movement, and his time was mostly taken with that. He made a personally conducted tour, and saw a very small part of American life, and that mostly under abnormal conditions. He did not meet all classes of people, in their homes and their work and their recreations; and there is no other way to size up a nation.

There are Americans open to the criticisms he made, but they are not America. The truth is that America is all things, big and little, good and bad, wise and foolish, and a visitor can find anything he is looking for. All that fair-minded Americans claim for their country is that it has a pretty good average, and they are ready to compare it, in essential merits, with any other country on earth.

## The Long, Long Trail

San Bernardino Sun

There are still to be written many chapters of how the motor car has affected our daily life; for it has by no means reached the limits of its usefulness. Of late it is being put more and more to a new use. It has given us the individual known as the automobile camper. This follower of the open road differs from the automobile tourist whom we have had with us for some time, in that the latter merely uses his automobile to take him from a hotel in one city to another. The automobile camper is a different bird of passage.

He carries with him beside his family an ingenious camping outfit of his own devising. In tents at the roadside or on the banks of a little stream they spend the night, and here the smell of fried bacon and coffee fills the morning air. There is no particular destination; nor do they travel on schedule. The road slipping by, mile on mile; a glimpse of wide plains and hills beyond; the strange noises of the night in quiet places—these are the simple but enduring joys of a follower of the open road. For nothing in the world would they exchange a month's outing of this kind.

Surely the automobile has immeasurably increased our opportunities for wholesale enjoyment.

## Re-Appointment Question

Fresno Republican

The "country caucus" made famous by W. F. Chandler, in 1911, while a member of the California assembly, threatens to be resumed again when the legislature is called into special session this fall to consider re-appointment.

It was re-appointment that gave the legislature the "country caucus" in 1911 and it will be re-appointment that will bring another "country caucus" in 1921.

A Fresno assemblyman held his rural colleagues in line for days, while he insisted that in the re-appointment of the state, the balance of power should not be held by the cities of San Francisco and Los Angeles.

In 1921, it appears that Fresno is to be the center of a similar fight and the preliminaries for the struggle have already been laid.

Believing that the best interests of the state as a whole cannot be served if the control of the state legislature is in the hands of representatives from the two large cities, representatives of the rural communities are preparing to wage a vigorous fight to prevent the creation of such a situation.

Time has shown that the interests of the state have been well served by a distribution of legislative representation that has made impossible the control by any section of the state or any particular interests of the California legislature and its actions.

The interior counties of the state are justified in any fight they may make to prevent a re-appointment of that kind which would give cities a balance of power among our law makers.

## Business Gets Scholars

Riverside Press

It used to be that the majority of college graduates went into the "learned professions." That is, they became doctors, lawyers or ministers or teachers. It was something of a shock to academic tradition when graduates began to go into business. Now the tendency is reversed and business gets the majority.

The law still holds its own. Large numbers of students after taking regular college courses go on through the law school and are ready to enter the profession. There are, therefore, still plenty of lawyers. But doctors and preachers and educators are getting scarce. There is said to be a deficit of 25,000 physicians in the country. There is probably an equal deficit of trained clergymen. Good teachers for common schools are notoriously hard to get, though not quite so hard as during the war. As for teachers in the higher educational institutions, who correspond more nearly to the other three professions mentioned, they are almost unobtainable, so great is the drift toward business careers.

Possibly we shall soon have to regard business as a learned profession. It certainly does business for hard to fill its ranks with young men of education and culture. But the outlook for the traditional pursuits of a scholar is not a very inviting one.

The cause is evident enough. With the exception of law, the professions no longer pay anywhere near so much as business careers, in either money or honor. When they are more looked up to, and when they command better incomes, perhaps business will become less inviting to the student with the world before him.

## Editorial Shorts

One of the best things out is a defunct tooth.

Germany is calm, but not yet collected.—Columbia (S. C.) Record.

Another thing the sun never sets on is British troubles.—El Paso Times.

Peace is two years old, but all it can do is to stand a loan.—Washington Post.

So live that some day the city will feel like naming a park for you.—Indianapolis News.

The other day 30,000 sacks of sound onions were dumped into the slough at Stockton because there was no sale for them. At the same time onions were selling for a high price in the east, but the high freight rates and uncertainty as to how long the market would remain up made it inexpedient to make the shipment. Americans have a lot to learn about marketing and distribution of products.

## A LONG BEAT

Edison's questionnaire reminds us of the story of the Irishman who, while undergoing the civil service examination for policeman, was asked if he knew the distance between Boston and San Francisco.

"Well, no, I don't," he answered. "I know the distance exactly," he replied; "but if it's going to be my beat I don't want the job."—Boston Transcript.

## END OF FRIENDSHIP

Friendship that began in England when they were schoolmates ended Thursday night when Miss Emily M. Channon became the bride of Alfred Street of Caldwell.—Newark, N. J., Call.

## About This Time o' Year

## Today's Talk

By George Matthew Adams

### THE POTLUCK OF THE DAY

Acceptance is one of the great virtues of the human heart. And not until one is fully equipped to accept life and all its offerings and chances, is he able to enter into the full business of living.

We must learn to take the potluck of the day! Sometimes it will rain. There will be days that are hot. Some very cold. The very fibre of many days will be streaked with disappointment and discouragement.

But there will also be days that will fairly giggle with mirth and luck. The law of averages touches the path of us all. Let us take what is set before us, as the product of our toil and thinking, knowing full well that if we would partake well, we must work well and give well.

To none of us does it yet appear what we shall be at our best. I have in mind a woman who recently wrote me one of the most cheerful and encouraging letters I have ever received. She told me that she had been crippled for years, but that she had come to take her lot with good and happy grace. And although almost useless in body, she kept filling her mind with building thoughts and writing to those who helped her, thus helping them.

Come into my life, Oh friend—but take potluck with me! I have always liked to drop into the home of somebody whom I care for—and to sit at their table and take food potluck with them. I never want to apologize though for what they give me. That would spoil it all. For I wouldn't come to be fed, but to be filled—and that not with food, but with love and understanding and cheer.

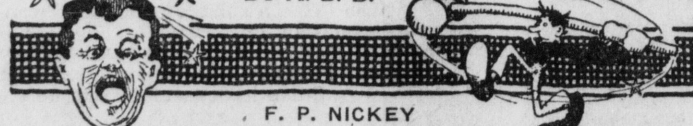

Each day dawns for all. And the conditions under which it arrives is the same for all.

You wouldn't be less brave or enterprising than the one next to you, would you? He dives in, willing to take what is given, determined to make things come if they aren't around. Potluck for him—and glad of the chance.

"All are architects of Fate,  
Working in these walls of Time;  
Some with massive deeds and great,  
Some with ornaments of rhyme."

## The Velvet Hammer

BY A. B. B.

F. P. NICKEY

He says his hardware is "The best since eighteen eighty some." The screws and nails F. P. retails are never on the bum. He keeps the razors gents employ for pulchritude and pride, and which the ladies too enjoy for corns and suicide; the sausage mills and ironing boards and tater-paring knives and other sharp conveniences for dull and pointless lives.

He eats responsibility as horses eat their oats. The list of his committee jobs would fill a book of notes. He has a place on every one which any one, could name, for Commerce Chamber, M. & M. or other business game. He's been in such societies a president or two and does not try to run away when there's a lot to do.

Although already he's acquired a handsome length of days, he shows no inclination to forsake his active ways. He keeps forever on the move, forever in the game, and marks up new achievements to the credit of his name. The busy world will often pause to praise or to admire the man who makes a smoke and keeps a-stirring up the fire.

## Worth While Verses

### WAIT IN JOY

Do your dull days give scope for no great act?  
Build them a lovely dream out-shining fact.  
Beautiful and strong, until the hour,  
That brings high use for your outpouring power.

The rainbow'd waterfall upon the hill  
Becomes the valley stream that turns the mill.

—Anna Cathrine Markham.

## How Is Your Health?

By Uncle Sam, M. D.  
Send health questions to Information Editor, U. S. Public Health Service, Washington, D. C. Give name and address and you'll receive a personal reply.

### ULCER OF THE STOMACH

Q. Please send me any pamphlets or literature you may have to distribute relating to stomach disorders, especially ulcers of the stomach.

A. The Public Health Service has no pamphlets or literature for distribution relating to stomach disorders, especially ulcer of the stomach. This is always a serious condition, and always demands the attention of a qualified physician.

### WEIGHT OF THE CHILDREN

Q. Please tell me the weight of a boy five feet seven inches tall.

A. The weight of a boy five feet seven inches tall depends entirely on his age. For example: A boy of this height, 13 years of age, should weigh about 130 pounds; a boy of 16 years of age should weigh about 133 pounds, and a boy of 18 years of age should weigh about 135 pounds.

### McFADDEN STREET GRIEVANCE.

Santa Ana, Calif., July 20, 1921.

We appreciate very much your defense of our attitude toward the repairing of McFadden street. However, the improper filling of the ditch is not our particular contention. May I explain our views and state just what we ask the city to do?

Some time ago the property owners adjoining and facing McFadden street got tired of mud and dust in front of their homes and had the street, from Main to Halliday, graveled and oiled to a depth of from three to five inches, at their own expense—not one dime did the city contribute toward the improvement. The property owners built a good road and it remained good, no mud at all and very little dust.

Last spring the city, in order to relieve a congested district, contracted to build a sewer, routing it on McFadden from Halliday to Main. The contractors dug their ditch right down the middle of our little strip of hard surface, throwing dirt on both sides, and then left the ditch open two or three weeks. The result was that it caved in, from two to eight feet wide, in numerous places, breaking up our gravel and oil surface and burying most of it. Now the sewer is finished and the street is back where it was before we spent any money on it, except that there is a nice ridge down the center, from sixteen to twenty inches high, and that we shall have to put hundreds and hundreds of barrels of water on it, at our own expense, to keep the dust from burying our lawns.

Ninety-nine per cent of the property owners ask the city, or whoever is responsible for this condition, to place the street in as good a condition as it was before the sewer was laid, and it is right and just that they should do so. The city fathers placed the communication on file without action along with thousands of others.

The mayor did suggest that the street superintendent have it sprinkled, but he replied that he couldn't keep up with his sprinkling now. The gentleman that smokes the big pipe said that he had been over the street and all it needed was a little grading.

R. E. JOYCE.

## Breaking Into the Dictionary

Chicago News

Pluggers for "Main Street," the most talked of novel of the last decade, have been trying to boost a new word into the dictionary. The word, derived from the heroine's name, is "to kennicott," or uplift by cultural process.

The cultured Miss Carol Kennicott is not likely to break into Webster, not if Captain Boycott knows it. Captain Boycott broke into Webster's some years back by inventing a process dear to all lexicographers. Now Captain Boycott is the patron saint of dictionary architects. Boycotting a word is the easiest thing to do.

Breaking into the Hall of Fame or the biographical dictionary is no trick at all. But the dictionary proper is another matter. Look at the living celebrities who have failed to turn the trick. Mme. Curie went in

when the curie and the milli-curie were declared the units of radio activity. Henry Ford is not in, although the Henry is now the unofficial unit of vehicular activity. Many a man has made the dictionary by discovering a new element, plant, butterfly or bug, but the ubiquitous Webster, not yet hopped in. Edison has made his way into Webster, but Luther Burbank waits outside, although Burbank has done more for culture than the phonograph or the questionnaire.

No man can be sure of immortality, fame or title, he has become a common noun or verb and entered the dictionary proper. The lexicographers were always an arbitrary body of men, conscious of their power, and they have been worse than ever since Captain Boycott was accepted.

## Bear Stories for Bedtime

CHAPTER 94

BILLY BEAR IN THE WAGON-BOX  
By Harvey Elliott

That Baby Calf was sure glad to see its mother. Old Bossie and her calf walked around side by side a little while, and when they came over where Billy could see real good, they stopped.

Then Billy Bear saw another interesting thing. What do you think it was? Well, sir, it was that little calf getting its dinner. It was a most interesting performance to Billy Bear. That calf went to work like it hadn't had anything to eat for a week.

As Billy watched the performance he found himself unconsciously smacking his own lips. He wondered if it was really good. He wouldn't mind trying it, but he knew there was no use trying to reason with that old cow. He had found that out before.

Billy felt pretty secure in his wagon-box and thought he could say most anything he wanted to.

"Hey, kid; how do you like it?" said Billy, and then he jerked his head down inside the wagon. That speech didn't seem to do any harm, so he thought he would try again. "Don't gobble it all!" shouted Billy. "Think you might let me have some! It hadn't been for me, you wouldn't have gotten any!"

Old Bossie turned her head, but didn't say anything. The baby calf didn't seem to hear a thing Billy was saying.

"Don't need to be so stuck up!" continued Billy, "it hasn't been long since you saw me. Say, kid, sing me another song like that one you sang a while ago, won't you? It was such a pretty one."

By this time Baby Calf had Old Bossie about pumped dry. It seemed to be getting impatient because it couldn't get any more milk. Then it drew back and butted Old Bossie off her feet. Billy giggled right out.

"Whack it to her!" he shouted. "I give her worse than that if I was at it, the old stump nose!"

Then what do you suppose happened? Well, sir, right out of the barn door walked Tommy Smith! It didn't take Billy Bear long to duck his head down inside that wagon-box.

"Hello, what's going on here?" he said, as he saw Old Bossie and her calf together. He looked all around and saw where the fence had been broken down. He felt pretty angry with Old Bossie. She had never done anything like that before. He couldn't understand what would make her do it.

Then Tommy Smith got a long switch and he took Old Bossie cow out of there in a hurry. Billy kept one eye out.

"Give it to her—that's what she needs!" said Billy. But he didn't say it loud enough for anybody to hear.

While Billy Bear was having his fun, he never had it in his heart to do a really mean thing.

Next story—"Tommy Smith Gets Exposed."

## Time to Smile

### A JOKE THAT RECOILED

A young man was walking up and down the platform of a country railroad junction in England trying to see a car that had a vacant seat. He didn't find it, and he was a little out of air, he walked up to the last car and announced in stentorian tones: "All out here; this car isn't going."

There were exclamations loud and deep from the occupants of the car, but they all piled out and made their way to cars ahead. The smile on the young man's face increased as he took possession of a seat and appropriated another for his luggage.

"Ah," he murmured, "it's a grand thing to be born clever! Now I wish they'd start."

By and by the stationmaster put his head in the door: "Are you the smart young man who said this car wasn't going?"

"Yes," said the clever one, smiling.

"Well," said the stationmaster, with a grin also, "it isn't. The brake didn't find it, and you, said, and he uncoupled. He thought you were a director."—Pittsburgh Chronicle-Telegraph.

### FISH?

Here's the latest: Lenny (rushing into the drug store), Say, didn't you tell me a fishing license the other day?

Manager—I don't know, what's the matter?

Lady—Why, it was no good.

Manager—What's the matter with it?

Lady—Why, we sat in the sun for four hours and only caught one fish.

## Today in History

JULY 22

1795—Thomas W. Harvey, inventor, born. Machinery for making screws, nails, rivets, etc.  
1798—Maiden voyage of frigate "Constitution" begun.  
1864—Second battle of Atlanta, Ga.
